### TWO BANDITS TAKEN; THIRD ACCIDENT VICTIM

(Continued from Page One)

INDIANAPOLIS, Ind., Sept. 20.—The Indianapolis Flamingo took to the air again early today on its second attempt to establish a new world's record for sustained flight.

At 9:05 a. m. today the Flamingo completed its ninth hour aloft. The tenth refueling was successfully completed at 5:30 a. m.

Lieutenants Walter Peck and Lawrence Gernaro are aboard the plane.

#### Pursue Bandits.

Dr. George Tibbens, brother of the president of the bank, McDowell Tibbens, was in Howard when the report of the robbery came in. He jumped into a machine with Frank Williams of Howard when they saw a car containing the bandits hurtle through the town and continue on in the direction of Mt. Eagle.

Pa News observes that some Good Samaritan has cut the weeds along the east side of Mercer street at the Park avenue Hollow, but neglected to perform a like service on the west side, where the weeds almost meet in the center of the sidewalk in many places.

According to some local residents, Sunday morning's frost did not do much damage as had been at first anticipated. Some tender varieties of plants which were not covered, were not entirely killed by the frost.

safety. Pendleton carried out three girls and Carney three girls and two men.

#### All Confused.

"The firemen were confused. Everyone was running around. No one seemed to think of calling taxis to take the victims to the hospital. Finally a fleet of cabs gathered at the scene and carried away the bodies."

"I was knocked down from a ladder by a misdirected stream of water. My companions and I were smoke-blackened and drenched with water when we brought our last burdens out of the building."

Lyle Bisco, 26, cab driver, related that he arrived at the scene with the first fire apparatus.

"You could hear people screaming a block away," he declared. "When I reached the front of the building I saw a man on the third floor waving a piece of white cloth. He shouted he couldn't get down and was pleading for someone to come up and get him."

"On the side and at the rear of the building people were jumping into nets. I saw one man jump and he missed the net and struck his head on the pavement. One woman jumped out of the window and most of her clothes had been torn off. I saw at least 10 people leap from the windows. All this time those on the inside were screaming for help. As people hit the nets firemen lifted them out and put them on stretchers. I took three unconscious women in my cab to the hospital."

Mrs. Blanche Gibson and daughter Donna of Lutton street, have returned from a visit in Detroit, Michigan.

The end is not yet. Pity the umbrella manufacturers when some scientist tells people rain is good for the hide, also.

### SEÑORITA LARGEST LAND HOLDER

Señorita Lucila de Quiros, left, Augusta Montealegre. Señorita Lucila de Quiros is the owner of the largest henequen and cattle ranch in Nicaragua. With her niece, Augusta Montealegre, the rich young Spanish-American rancherette recently visited the United States, arriving by way of Los Angeles.

### FIRST WITNESS CALLED IN TRIAL OF EARL PEACOX

(Continued from Page One)

murder exhibits were passed, one by one to the witness for identification. Silverstein was cross-examined by defense attorney Sidney A. Syme.

"Did you leave anything out of your story that would have helped the defendant?" demanded Syme.

The police officer finally admitted he might have left a few things out. "What did you leave out?" shouted Syme.

"Well," said the police official, "I asked Peacock how he could have done anything like that. He replied that it was an accident. I said 'There was a telephone in your apartment, why didn't you use it?' he replied, 'I was panic stricken.'"

"Did he tell you he had ordered Eugene Bussey never to come near his house again?" demanded Syme. "He never told it to me," replied Silverstein.

Bussey is the former Johns Hopkins University student with whom Mrs. Peacock corresponded.

Cross Examined

Court House, White Plains, N. Y., Sept. 20. Under the lash of a relentless cross-examination, Captain Michael I. Silverstein, acting chief of police of Mount Vernon, spent an uncomfortable morning on the witness stand today at the trial of Earl Peacock for the murder of his wife, Dorothy, but he stoutly denied the slayer had ever told him he had attempted to revive his bride of a year, after he had choked her.

"Peacock never told me anything like that," declared Silverstein emphatically. It was Silverstein who exacted the confession of the crime from Peacock.

" Didn't he tell you he got a wet cloth and placed it over his wife's head?" asked Defense Attorney Sidney A. Syme.

"He did not."

Attorney Syme forced Silverstein to recall that Peacock had said that he was "panic stricken" after he had choked his wife into unconsciousness. This was brought out by the defense to refute the state's contention of premeditation.

The witness was asked by Syme to again tell the story of what happened in Peacock's apartment the night he strangled his wife.

"Did Peacock tell you he made an attempt to revive her after she had swooned, as you say?" asked Syme.

sister Mrs. John Phillips of this city. Police were at a loss to think of any motive for the crime other than robbery until the discovery of a note among the savant's possessions earlier today. None of the officials would discuss the note or give any information regarding its contents. Whiteside's next door neighbor, Mrs. Julia Blankenburg, was the first to reach the artist's side. She screamed at sight of the blood and other neighbors hurried to the scene. She was confined to the home of a relative today suffering from shock and refused to see all callers.

Detectives questioned Clyde Frank Shuler, a son-in-law of the dead man but he could throw no light on the mystery. He sought seclusion after a brief statement.

"My father-in-law had no enemies and I cannot understand this at all," he said. "He never carried large sums of money on his person or had it in the house."

STAR LORE

THE MOONS OF SATURN

By Arthur DeV. Carpenter

The planet Saturn has nine moons of which the five nearest the planet move in orbits nearly in line with the plane of the rings that encircle it. Beginning with the inner moon, their names are: Mimas, Enceladus, Tethys, Dione, Rhea, Titan, Hyperion, Iapetus and Phoebe.

Titan outranks them all in size, its diameter being 2,600 miles. The outer moon, Phoebe, like the two outer moons of Jupiter has a retrograde motion, its orbit being in the opposite direction to all of the others. Probably all nine of the moons, like the earth's moon, always keep the same face turned toward Saturn.

## MISS LOUISE EDMUNDS WEDS D. W. JOHNSTON

## MISCELLANEOUS SHOWER HONORS RECENT BRIDE

A pretty wedding was solemnized Thursday noon in the home of Mr. and Mrs. J. F. Edmunds, West Clayton street, when their daughter, Anna Louise, became the bride of Donald W. Johnston, son of Mr. and Mrs. Charles N. Johnston, Laurel boulevard.

The ceremony was performed before an entourage of parents and ferns, with Rev. W. W. Smith, pastor of the Madison avenue Christian church officiating. Preceding the ceremony, Miss Iva Jones played "When Summer Is Gone," and later the wedding march from Loie Seguin.

A gown of ivory satin was worn by the bride and she carried Killarney roses.

Miss Helene Johnston, sister of the groom, as maid of honor, was attired in rose suit and tulip, with picture hat to match, and carried premier roses. Miss Ruth Walker, as bridesmaid, wore green chintz with picture hat and carried roses. Little Kathleen West served as ring bearer.

William T. Edmunds, brother of the bride, served as best man and J. Bernard Johnston, brother of the groom, was an usher.

Forty-five guests were present and supplementing the ceremony dinner was served with covers for 12 at the bride's table, which was centered with a wedding cake. Old rose and green tones prevailed in the appointments.

Out-of-town guests were Mr. and Mrs. T. J. Mcclusky and son, Miss Helen Glasser, Miss Helen Loftus of Youngstown, O.; Jessie B. Tyler of Cooncave Lake, Mr. and Mrs. T. J. Tyler and daughters, Mrs. William Thornhill, Mrs. J. H. Wyst and daughter, and Mr. Regal of Warren, O., and Miss Belle Brundt of Hartland.

The bride is a graduate of the local high school class of '26 and is employed as bookkeeper with the Haney Furniture Company.

Mr. Johnston is graduate of the local high school class of '21 of the University of Pittsburgh class of '26 and is associated with the Smith Drug Company. He is also a member of the Phi Delta Phi fraternity.

Mr. and Mrs. Johnston left for an eastern trip and will reside with the bride's parents upon their return. For traveling the bride wore blue crepe with matching accessories.

Our Disgraces.  
Birkenhead Is Here.  
Unconvincible Lindbergh.  
A Fight For John D.

By ARTHUR G. BRISBANE  
(Copyright, 1929, King Features  
Syndicate, Inc.)

We have an assortment of "national disgraces." One, our high percentage of illiteracy, another the lack of efficiency of bootleggers, hijackers, organized criminals.

Another is the official usury established by the Federal Reserve as a basis for dealing in American securities.

Our worst disgrace is the fact established by the American Association of Obstetricians, Gynecologists and Abdominal Surgeons, that this nation has the highest maternity death rate in the civilized world.

Of the thousands of mothers dying every year in childbirth, 65 percent are killed by septicemia and toxemia, both preventable.

Many such deaths could be avoided if some department of the government was as interested in the safe birth of a child as is the agricultural department in the birth of a new calf or a litter of small pigs.

The Earl of Birkenhead, secretary of state for India, who gave up his job in the British government to go into business, is now in the United States.

Lord Birkenhead says the British Labor government is "for state ownership in the abstract and hopelessly unable to take any steps in that direction."

Our government is against state ownership is the abstract, the concrete and the indefinite, and it wouldn't take any steps in that direction if it could.

If you meet Lord Birkenhead you will see an able Britisher.

Col. Lindbergh with his wife have started on flight to cover a great part of Central and South America.

A dangerous flight, it has stretches of 700 miles with no possible landing. Fortunately the world's best flier is in charge.

One of the nation's highest officials begged Col. Lindbergh to run no more risks, saying that an accident to him would mean "a great blow to the affections of the nation."

Said he afterwards, "I produced no effect, for Colonel Lindbergh declined at the outset to admit any danger in flying."

Mrs. Lindbergh seems to have adopted Roosevelt's motto "deeds, not words." No young woman interests the American public more than she does and since her marriage she has not uttered one word for publication.

Colonel R. W. Stewart, formerly head of Standard Oil of Indiana, beaten in a fight with Mr. Rockefeller, is on his way to England.

Perhaps he goes to join the Shell Company in a great British Oil merger and Anti-Standard Oil fight.

Colonel Stewart will visit Sir Henry Deterding, head of British "Shell," the biggest Rockefeller rival in the world's oil trade.

If the British want action and an American representative who knows the oil business, they show intelligence in selecting Col. Stewart.

Betting is wrong, and apart from that, it might be unwise to bet against the Rockefellers. They have never acquired the habit of losing.

Albert Oettinger, able New Yorker, returns from Russia amazed at his discovery that all Russian convicts, except political prisoners, have every year two weeks vacation to visit relatives.

Mr. Oettinger was "startled by Russia's achievements in industrial undertakings."

Perhaps our government underestimates those Russians. We did well after we got rid of King George. Russia may be doing as well having got rid of a czar that made King George look like a brilliant statesman.

Mr. L. F. Loree, who believes in mergers, and big ones, would like to combine 17 railroads with the Delaware and Hudson.

Common sense says the bigger the mergers the better, since the public must pay for all unnecessary overhead, duplicate salaries of freight solicitors, duplicate purchasing departments, waste on uncommercial routing, etc.

If the people haven't brains enough to watch the big mergers, they wouldn't have brains enough to watch little roads combining secretly.

Our glorious Constitution was born on September 16, 142 years ago, followed long discussions and many compromises. But it's undoubtedly the world's best constitution.

Some respectable citizens believe that the Constitution doesn't count when it interferes with their drinking. That may pass.

NEIGHBORLY

Visiting some friends out of town, a woman left the following note for her next-door neighbor:

"Dear Mrs. Keller: Would you please put out a little food for the cat I have been feeding this winter? It will eat almost anything, but do not put your feet out."

MANNERS

Housewife—Would you like some cake?

Tramp—Yes.

"Yes, what?"

"Yes, dear."

BALANCING THE BUDGET.

A hint to the thrifty: The King of Spain has reduced the royal elephant herd by half in order to make his household budget balance.

MAKING TOO MANY.

Father what is the law of gravitation?"

"I don't know. They're making so many laws nowadays."

"A plan to be recommended. The fact is that in the case of many men their best judgment is in their wife's name."

"Oh the clothes that make the women."

PAYING FOR CARELESSNESS

"Perhaps there is some real sense in the clothes that break the men."

Mickey (Himself) McGuire.

Automobiles must be easy to buy. You save?

The reason some good men do not run for public office is because it does not pay to stand for what a candidate has to stand for to gain the favor of those who go to the polls. Good men make good officials, at that.

A woman college professor says primary schools need more men teachers because it is bad to have all teachers of one sex. This is a subject that could very readily be made a nationwide discussion.

SENSES.

Let the world be gone with its toll. I make my bed of the soil. Down on the bogs. I hear the nervous thrashed frogs. Up in the sky. I see the clouds drift by. Among the trees. I hear the rustle of the breeze. Down from the bay. Comes the taste of salt spray. With my bare hands I feel for the infinite—it is there.

Let the world its troubles keep—

I sleep.

"And I enjoyed knowing it was mine."

"Yours?" scoffed the keeper. "Why didn't you bring it with you? You poor slob! It wasn't yours except to use. That same bit of acreage has been owned by a thousand generations of men and now another claims it. You owned it like you owned the air you breathed; you used it for a moment that was all. What I want to know is did you misuse it?"

"I don't know what you mean!" Bill answered sullenly.

"You wouldn't," said the keeper.

"When you began life we gave you a

"Not a foot," said Jones. "Not a cent I began with nothing."

"Well," said the keeper. "you weren't expected to make anything from nothing. You were expected to improve the property you were given."

"But—" Bill began.

"But me no bus!" said the keeper.

You were given a life and the raw material of character. Can't you see that your sole business was to improve the properties placed in your possession and you have made a sorry thing of it?"

"I didn't understand," Bill muttered.

"Few do," said the gateman drily.

# Division Sending Party To System Meet At Altoona

Special Pullmans Chartered; Band And Athletes Accompany

ALONG WITH GROUP OFFICIALS WILL GO

Superintendent and Mrs. H. T. Prushor, Master Mechanic J. S. Richards, E. F. Johnston, chief clerk to the superintendent, L. C. Gleason, divisional athletic and publicity director and other officials of the Erie & Ashland division will head the party of local Pennsylvania railroad employees who plan to attend the system athletes meet at Altoona all day Saturday.

Three Pullman cars attached to a regular train leaving the city tonight shortly after 6 o'clock, eastern standard time, will carry the division's employees and officials to the meet.

Members of the Erie & Ashland band under the direction of H. L. Culbertson will make the trip and participate in the program at Altoona. The band will occupy one entire Pullman.

According to E. & A. officials, the division has entered several men in the meet, including runners, broad jumpers and shot putters. They are the E. & A. men who proved champs at the regional eliminations in Pittsburg recently.

The party is expected to return to New Castle Sunday morning. Special trains will be forced at Pittsburgh enroute and on the return will continue to that city where the local coaches will be attached to a regular train for the final run on Sunday.

## FIRE TRAPS

### MERRymAKERS IN CABARET IN DETROIT

ing. Still others died in attempts to leap to safety from second story windows.

Most of the dead and injured were in a dance hall or in dining rooms on the second floor.

Flimsy draperies and paper mache effects decorated the dance hall. In addition to the boarded up windows there were "false" windows of plaster and drapes.

**Fire Escapes Covered.**

Even the fire escape exits were dry-preserved.

Most of the draperies were wax covered because the wax gave a lustrous effect. When the flames first swirled upward from somewhere in the basement the waxed drapes burned like tissue paper, with a succession of sharp reports.

John Dodge, automobile sales and two companions were passing the "club" when they heard the groans of the dying, the screams of the men and women and the sharp crackle of the flames. Dodge jumped from his car and fought his way into the down-stairs corridor.

**Taxi Drivers Aid.**

Taxi drivers also carried many others to safety.

Every agency of the police department was ordered into action to investigate the disaster. Every available member of the crime and bomb squad, the homicide squad, the detective bureau and the arson squad was ordered on 24-hour duty.

William Sels, a waiter, was one of the first to be questioned. He was hurt in a 20-foot drop from the fire

### CONVERTS CORN STALKS INTO GAS

Photo shows apparatus that has been used in converting corn stalks into gas during experiments conducted at the University of Illinois. By mixing the stalks in a closed fermentation tank with the wastes of the ordinary farmer's household, which provide the necessary nitrogenous materials, marsh gas is produced which has a heat value equal to municipal gas. The experiments were conducted by Prof. A. M. Buswell, upper left, and C. S. Boruff, below, both of the University of Illinois.

the only police witness who had been found who was on the fatal second floor.

**Flames Break Out.**

Though Cohn insisted there was a "wet bomb" and an explosion, Sels said there was no explosion—just a sudden crackling as flames swept up from the floor.

**Odom Noticed Several Days.**

Police declared that employees of the place told them that for several days there had been a faint odor of scorched rubber, resembling smell of burning wires in a short circuit.

According to the story of Sels and other eye-witnesses, the dance hall and the private dining rooms on the second floor were crowded. The orchestra was playing a final encore preparatory to closing.

Someone saw a thin wisp of smoke near the floor and in the corridor leading to the front exit. Then a great billow of smoke surged up from the floor.

**Little Flame Could Be Discerned.**

Little flame could be discerned at first but suddenly the draperies became ignited and flames crackled and spread upward. Smoke and pandemonium followed.

**Death Trap.**

The musicians dropped their instruments. The rendezvous of gaiety and revelry was transferred in a twinkling into a death trap, filled with frantic, tear-crazed men and women fighting to escape. Some beat their fists until their hands were raw and broken, attempting to break the "glass" in windows that were not windows at all.

The draperies burned quickly. A few fought their way to fire escapes before the flames cut off their flight. Others made their way through the main corridor, only to die in the ravages of the flames.

**Criminal Negligence.**

Detroit, Sept. 20.—Criminal negligence was charged today by Assistant Prosecutor Duncan McCrea in the Study Club fire, which took the lives of nine men and seven women and sent 50 more to hospitals.

McCrea ordered that Marty Cohn, proprietor of the club, be taken into custody.

The nine men and seven women died, McCrea said, because there were no fire escapes and windows had been boarded tight to prevent the sounds of midnight revelry from floating outside.

The dead and the injured were trapped between a swiftly advancing barrier of flame on the second floor of the club and a wall that was blank except for one small window leading from a dressing room.

McCrea made his allegations after interviewing more than 15 survivors.

They all told the same story of horror—for men and women trampled to death; of frantic efforts to reach the one avenue of escape, the small dressing room window.

The club was hung with draperies and decorative effects. All the decorations were waxed, to give them lustre, McCrea said, and the wax acted as oil to the onrushing flames.

"There were no fire escapes," McCrea said. "The windows were barricaded. Conditions were rotten. That's the only word for it—rotten." There was no adequate means of escape and they had to die there.

"Cohn tells me that he was told eight or nine months ago to put up fire escapes, and he had planned to do so, but he didn't. That second floor was nothing but death trap."

While charging criminal negligence, McCrea did not specify who was guilty of such negligence. He ordered Cohn held pending further investigation without a definite charge being placed against him.

Henry J. Garvin, of the crime and bomb squad, Fire Marshall Gabe Goldwater and other investigators declared the fire started accidentally near the foot of the stairway. There was no evidence whatever, they said.

Dr. Richard Booth of Sharon and Dr. Philip Sargent of this city have left to spend a few days at Camp Hamilton at Lancaster, Pa., training camp of the University of Pittsburgh football team. Both Booth and Sargent are former members of the Pitt football squad.

There were approximately 200 persons in the club including employees. The dead and injured were all in the dance hall on the second floor back.

Within a few minutes of the time the fire first broke out the injured were being taken to hospitals. The entire staff of receiving hospital was called out on extra duty.

# Mauretania May Never Recover Atlantic Title

By CHARLES A. SMITH  
International News Service Staff Correspondent  
LONDON, Sept. 20.—No matter how hard she may try, the 23-year-old crack British liner Mauretania will never recover the trans-Atlantic speed record wrested from her recently by the German vessel Bremen.

Sir Alfred Yarrow, veteran British shipping expert and inventor of the world-famous marine boiler bearing his name, is the authority for this statement, which does much to destroy the illusion now prevalent in Britain that the Mauretania is capable of beating the German giant.

## Ship Too Old.

"I cannot see how the Mauretania can be expected to beat the Bremen's record," Sir Alfred said in an interview with International News Service today. "Put it this way, I am 67. How could I be expected to race a man much younger than myself?"

The Mauretania, I believe, gave of her best when she recently crossed the Atlantic within four hours of the Bremen's record. The Bremen, however, may be expected to do much better. As her machinery gets down to its bearings she will undoubtedly be able to improve on her first trials."

Sir Alfred declared he does not believe shipowners will lay down other ships to beat the Bremen's record.

## Built Other Ships.

"Undoubtedly other ships could be built to improve upon existing results. But it is really worth while to build for these enormous speeds, which are very costly in power and upkeep, when one can foresee that those people who are in a great hurry to get from London to New York and vice versa will undoubtedly, in 20 years' time or less, be able to fly across the Atlantic to a definite time-table."

"People who are not in a hurry will not mind spending one day more on the Atlantic at a reduced cost and without the discomfort of the vibration of vessels which go at an excessively high speed," he opined.

## Telephone Hero Is Given Vail Medal

International News Service  
Mystic, Conn., Sept. 20.—Carl A. E. Hoeck, a young telephone installer, was a Vail memorial medal for heroism. Hoeck last winter came across a man who had been overcome by monoxide gas from a defective gasoline heater in his office and gave artificial respiration. When a doctor arrived from a distant point the man was out of danger. Others had sought to aid the man before Hoeck arrived but had given him the wrong treatment.

Two hundred telephone employees saw Hoeck given the medal by James F. Moran, president of the Southern New England Telephone company.

Mrs. CRICKET HOPPED AND JUMPED OVER THE ROCK.

6

NO MAGICIAN JUST A CLEVER MUSICALIAN

You can be sure of one thing and that is that Peter kept as close tab as he could on Chirper. And he saw that Cricket lifted the covers of his wings and then, while they were raised, began to rub them together, first rather slowly, then just as fast as he could. The layers of those wings began to quiver so violently that Peter thought Chirper must certainly injure them. Evidently, however, Mr. Cricket knew what he was about. Soon sounded that cheery note that Peter was listening for and before he was through Chirper had treated Peter and his adoring little wife to quite a concert.

"There's no one in Cricket circles who can play better than husband," I say that for him," remarked Mrs. Cricket, proudly. "His touch is perfect, don't you think so? Thank you, husband, that was wonderful but dear me, dear me. I am putting pleasure before duty. I must hasten home and see how the children are getting along. We can't keep too close a watch upon the youngsters these days since we have been warned Praying Mantis is in the neighborhood. Chirper wouldn't tell me the truth for fear it might worry me, but I happened to overhear a few of that dreadful old insect's remarks myself from where I crouched behind that rock. Come and see us boy, whenever you can, and want to. Goodby, husband! Watch your step and come home early."

With a friendly wave of his feathers, Mrs. Cricket hopped, skipped and jumped over the rock and out of sight into her home. Chirper, however, seemed to be going nowhere. The cheerful, lazy fellow settled himself under the toad stool paws and Peter, who had stood up to bid police farewell to Mrs. Cricket, sat down again in the shade. But the two had no sooner made themselves comfortable than Peter heard an unfamiliar noise. Knowing that it paid to take no chances on strange sights and sounds, he was about to call Mr. Cricket's attention to what he'd heard when he noticed his companion was acting queerly. Why, the fellow was foaming at the mouth! What could the matter be? Was Cricket ill? Peter was alarmed.

Conn. TOWNS

Go Deeply In Debt

International News Service

HARTFORD, Sept. 20—Connecticut towns are going deeply into debt, according to a statement issued by the state tax commission here. During the year 1928 expenditures of the towns were almost \$1 million dollars above receipts. The commissioner pointed out that:

"While population in Connecticut increased 8.77 per cent over 1924, governmental expenses increased 36 per cent. Expenses also increased at a much more rapid rate than tax receipts and grand lists."

Counties of New London and Middlesex have no debts. Neither have the towns of Andover, Avon, Goshen, and Scotland. Boroughs of Bantam, Branford, Newtown and Unionville are in the same category. Waterbury has the distinction of having the greatest debt. That city of 150,000 owes \$173,14 per resident.

# Bird Poison In Waco Was Also Death To Girl

By DENNIS J. MASON,  
International News Service Staff  
Correspondent  
WACO, Texas, Sept. 20.—When the  
grand jury meets here in November it  
will hear from the lips of John Heusser  
his story of why birds in a residential  
section fell dead from the trees, why dogs and cats died by mys-  
terious means and why a baby girl  
gave up her life by poison.

Heusser was the father of Rosa Lee whose life was snuffed out he  
said when she received some of the  
deadly potions which two farmer  
residents of the neighborhood broad-  
cast through the alleys and streets  
without regard for the animal or bird  
life of that section.

His story is supported by the affidavits of other residents who declared  
the persons named by Heusser—  
their names are now being kept secret  
—distributed poisoned morsels of food  
and grain in the streets and alleys a  
number of times.

Fires Felt Dead.

"I could see the birds falling all  
around" Mrs. J. A. Rainey swore in  
an affidavit which will be handed to  
the grand jury. "They would be  
around you out in the trees and would  
fall down."

"They put out poisoned grain a  
number of times. They warned me to  
keep my cats out of the way, but they  
didn't poison anything a person  
would eat. That is if they did I didn't  
know it."

Rosa Lee Heusser died mysteriously  
several months ago; doctors who  
trated her never discovered the  
cause of her suffering.

"I told him" says one affidavit  
which supports Heusser's story and  
names the suspect, "when the girl  
was sick that if anybody in East Waco  
knew anything about the kind of  
poison that was used that would give  
relief to the baby he was a sorry man  
if he didn't come out and say so."

H. E. Richy testified that his dog  
died. "She died" he said within two  
hours after being taken sick and un-  
doubtedly from poison. I bought another  
dog and brought her home and she  
too died a few days later.

No Motive Known.

Other residents said they knew  
that the poison was being placed in-  
discriminately about the neighbor-  
hood and some of them had it direct  
from the suspect they said that he  
and his wife were placing the deadly  
morsels.

No motive could be ascribed for  
the wholesale scattering of death deal-  
ing morsels which almost cleaned the  
neighborhood of animal life and which  
certainly Heusser declares took the  
life of his baby girl.

"They just must not have wanted  
any animal or bird to live around them," according to Heusser. "They  
killed my baby too and I want them  
punished for it. I'll find them."

It is of interest to many people  
here to read in the Pittsburgh paper  
that C. A. Stevenson of the McDowell  
National Bank of Sharon has been  
elected president of the local chapter  
of the American Institute of Banking.  
Arthur has worked hard in the in-  
terest of this organization and de-  
serves to be honored.

Of interest to many in this com-  
munity was the marriage of Ella  
Lightner of Slippery Rock and David  
Snyder of Isle, which took place  
Thursday, Sept. 12, at five o'clock at  
the bride's home. The Bridal Chorus  
from Lehengren was played by  
Mrs. Robert Elder. Rev. McClure of-  
ficiated at the wedding ceremony.  
Guests were present from Portersville,  
New Castle, Grove City, North Lib-  
erty, Aliquippa and Slippery Rock.  
After the ceremony a wedding dinner  
was served, places being laid for eight  
at the bride's table. After a wedding  
trip to places of interest in the North,  
Mr. and Mrs. Snyder will be at home  
to their friends in Slippery Rock.

### It's Smart To Be Thrifty

Everyone knows its smart to  
be thrifty but to practice thrift  
to the fullest extent possible,  
means choosing a store where  
one can shop with greatest  
values assured. We believe Off-  
utt's is such a store for we sell  
for cash only and do not have  
to add a profit to cover the ex-  
pense of a charge account system;  
therefore, it is reasonable  
to expect to save money by  
making this your headquarters  
for shopping.

We do not claim to have  
every item in the store for less  
at all times, but we are never  
knowingly undersold, and you  
can usually buy for less here.  
In the long run, you can save  
money if you shop here consist-  
ently.

MR. GEORGE W. BARNETT

"For a long time my stomach bothered me," said Mr. George W. Barnett, Route No. 2, Punxsutawney, Pa. "Indigestion, gas and bloating were some of the miseries I had to put up with. A sluggish liver, and the weak condition of my bowels made me susceptible to headaches, dizzy spells and bilious attacks."

"A friend recommended Konjola to me and insisted that I give it a trial. My whole inner system has been strengthened and invigorated. Nearly all the old distress has disappeared. I eat better, sleep better and feel better than ever before. John [sic] me back on my feet again and that is why I recommend it to others."

Youth Charged With  
Larceny Of \$160  
From Restaurant

Robert Keefe Denies Charges  
When Placed On Trial At  
Court Today

Robert Keefe, charged with the larceny of \$160 from Frank Denas at the Marathon restaurant, was placed on trial before Judge Hildebrand this morning. Keefe was employed at the restaurant. It is alleged that the cash was taken from a money drawer. The money drawer was locked, but according to City Detective John Young, there was another drawer next to the money drawer. By pulling out this drawer Detective Young testified that it was possible to remove a side of the money drawer and reach into it. Keefe denies that he took the money.

Tuberculosis Is  
Conference Theme

New Castle League Workers At  
Conference In Pitts-  
burgh

Pennsylvania is one of the leaders among the states in the fight to overcome tuberculosis and to improve health conditions, according to F. D. Hopkins, who spoke today at a conference for tuberculosis workers from southwestern Pennsylvania counties held at the Fort Pitt hotel in Pittsburgh.

This conference discussed various phases of the tuberculosis campaign and methods to be followed in the Christmas seal sale which begins November 29.

The Christmas seal this year pictures a bell ringer dressed in medieval costume tugging at a heavy bell, announcing again that tuberculosis is slowly being conquered.

Among the speakers besides Mr. Hopkins were Arthur M. Dewey, executive secretary of the Pennsylvania Tuberculosis society; Mrs. Jessie Wherry, Washington; Miss Elma Graham, Beaver; Mrs. John Clarke, Waynesburg; George R. Jackson, Pittsburgh.

The secretary and treasurer of the organization, from New Castle, were present at the meeting.

# Woman In Mill Holds One Job For 64 Years

Skirts Follow Hair

International News Service  
NEW BEDFORD, Mass., Sept. 20.—A little girl who went to work in the Wamsutta Mills while the town bells were still tolling the news of Lincoln's assassination, has just rounded out 64 years of employment in the same plant.

At the age of 71 Miss Julia Hanlon looks back on 64 years of textile work with satisfaction and expects to remain at her present job in the sheeting department for many years to come.

**Holds Record**  
When presented with a gold pin by the chamber of commerce recently it was revealed that Miss Hanlon holds the record for continuous employment in this city—and likely in most other cities.

Arriving in New Bedford at the age of seven, Miss Hanlon secured a job as a sweater at the mills. She progressed through the plant, working on spinning frames, as a spooler, and finally as a weaver. Most of the cloth sent to the St. Louis Exposition was woven by Miss Hanlon. During the world war she devoted her loom to the production of airplane, gasmasks and uniform cloth. At present she is employed in the pressing room where she finds the work slightly less remunerative but easier and more pleasant.

**Healthy Work**  
The trim little lady, who looks considerably less than her age, attributes her remarkably good health to sane, regular living. Her hobbies are fancy needlework, for which she has won a number of prizes at fairs, and reading. She lives in an attractive two story house, which she owns together with her sister, Miss Katherine F. Hanlon.

Miss Hanlon became slightly indignant in refuting the common impression that mill work is unhealthful. "During all my 64 years," she pointed out, "I have never been sick seriously enough to need a physician, and the only effect of my work is that the constant roar of the machinery has made me slightly deaf."

## Wichita Preacher Cop Weds Visiting Couples

International News Service

WICHITA, Kans., Sept. 20.—Wichita's marrying persons are apt to meet competition from the police department.

"Where can we find a preacher?" halled a voice from a car as a patrolman was walking his beat about midnight.

"Go to the police station, they'll fix you up," was the patrolman's answer. At the police station Owen Walker, 21, Great Bend, Kas., and Nina Miller, 18, Sayre, Okla., and a group of friends left the car and entered. Rev. R. R. Bach was spending his vacation as a member of the police "dry" squad.

Bach laid aside his gun and read the wedding ritual for the couple.

"With patrolmen all over town to rustle up business, it ought to be a pretty good proposition for some preacher to stay at the police station each night," commented the sergeant.

## Light Company Cuts Customers Bills

International News Service  
HARTFORD, Sept. 20.—The Hartford Electric Light company will reduce all customer bills 60 per cent, give all employees a 60 per cent bonus and hand stockholders an extra dividend equal to 60 per cent of the regular dividend for the month of October, according to a vote of the company directors.

**SHOWER FOR RECENT BRIDE**  
Friends and neighbors of Mr. and Mrs. Harry Baker, recent bride and groom, tendered them a miscellaneous shower Wednesday night at the home of the bride's parents, Mr. and Mrs. Frank McKim. Mrs. Baker before her marriage was Miss Ruth McKim. About 80 were present and many beautiful and useful gifts were received. A social good time and delicious lunch were enjoyed by all.

Mrs. Phillip Day had for her assistants in serving the lunch Mesdames Joseph Davis, Harry Laughlin, Carrie Young, Elsie Hartzel and Miss Jennie McKim.

**WAMPUM PERSONS**  
Miss Anna Paulovich of Clinton Lloyd Stevenson of Ellwood City, Miss. Virginia Thompson and Lester Beightley of Beaver Falls have returned from a motor trip through West Virginia and Kentucky, also visited the Mammoth cave and other points of interest.

Mr. and Mrs. Paul Sturgeon, bride and groom of recent date, have returned and will reside with Mr. and Mrs. W. C. Sturgeon on Clyde street.

**FAILS TO CURE**  
KITTANNING, Pa., Sept. 20.—Although an operation was performed on Frank Mazotzic, 12, "to cure him of evil tendencies," his larceny habits stay with him. He is in the custody of the sheriff for appropriating a \$300 diamond ring and other property not entirely his own.

**SPEEDY COUNTERS**  
International News Service  
BROWNSVILLE, Pa., Sept. 20.—To count \$11 votes the election board at West Brownsville worked 35 hours. Believe it or not.

Lloyd Waner of the Pittsburgh Pirates may be "Little Poison" to his opponents but he's the "cream in her coffee" to his wife, the former Miss Frances Mae Snyder. They were married at Swissvale, Pa., and "Big Poison," his brother Paul, was the best man.

## Mrs. Pearl Dando Being Tried On Perjury Charge

Case Grows Out Of A Narcotic  
Trial Held At The Last  
Term Of Court

Mrs. Pearl Dando was placed on trial before Judge Chamberlain this morning on a charge of perjury made by Matthew Mush. The case grows out of a narcotic trial held at the last term of court. Mush was convicted at this trial, Pearl Dando was a witness against him, and he now charges that she committed perjury in her testimony. Mrs. Dando, who has been in jail trying to break the drug habit, denies that she committed the perjury. In the trial of the case this morning much of the testimony was similar to that given at the former trial.

Mush, who was found guilty of handling the narcotic, denies his guilt and has made an application for a new trial. He has been out on bail.

## Official Count Of Ballots Cast Last Tuesday At Primary

Return judges appointed to count the vote cast at last Tuesday's primary convened at the court house at noon today and began work. It is expected that it will require several days to complete the count, as in addition to the city and county contests, there were a number in the different boroughs and townships.

# Find Body Of Man In Speakeasy Fire

Discover Watchman Dead In Rear Room After Fire Is Extinguished

(International News Service) PITTSBURGH, Sept. 20.—When firemen extinguished a \$2,000 fire in an alleged East Liberty speakeasy early today, they found in a rear room what is believed to be the body of Peter Muile, Oakland. Police believe he was employed there as a watchman.

Four hours after the fire, Owen McAvoey, 51, alleged owner, was arrested and charged with keeping a disorderly house. Frankstown station officers aver that the building, a three-story brick and frame structure, was used exclusively as a speakeasy.

The middle room of the first floor was equipped with a bar. Behind the bar, officers said, they found large quantities of moonshine, and also confiscated several hundred bottles of home brew in an adjoining room.

Firemen believed that the dead man may have caused the fire by accidentally igniting his clothes against the gas stove.

See Enrollment Beyond Record At Westminster

## On Crime Board

Registration closed at Westminster college yesterday afternoon at 4 o'clock when more than 500 students were already on the rolls. A large number whose reservations of rooms are in will no doubt register today and tomorrow, and there are at least 10 or 12 students who will not be able to report until next week. Indications are that the total enrollment at the start of next week will be about 575, the largest in the history of the college.

A re-check on the classification of students already registered shows that 106 are seniors, 105 are juniors, 118 are sophomores, 152 are freshmen, 35 music students, and four special students, or a total of 520. The total number registered during the two special registration days last fall was 467, but the total enrollment last year was 533. So there is every evidence that this year's enrollment will reach 575.

Senate Inquires Into Part Of Ship Builders At Geneva Conference

(International News Service) WASHINGTON, Sept. 20.—With William B. Shearer sitting on the side lines the senate opened its inquiry into charges that American ship builders sought to break down the Geneva tri-powerful disarmament conference two years ago.

Clinton F. Bardo president of the New York Ship Building company, a subsidiary of the American Brown-Boveri Electrical company which was one of the three companies which employed Shearer as an observer at the conference, was the first witness. Shearer's lawyer, Daniel T. Cohalan, interrupted proceedings at the outset with an appeal for a hearing for his client first. He pointed out that Shearer had been charged with what practically amounted to having "done things against his government."

"This man's rights are being invaded," he said. "He should be given an opportunity to testify."

Senator Shortridge (R.) of California, chairman of the sub-committee, conducting the investigation, told Cohalan that Shearer would be called in the course of the investigation and Bardo took the stand.

CHICAGO, Sept. 20—Chicago veterans of the famous Yankee division will leave for Boston September 26 where they will board the S. S. Carmania for France.

The pilgrimage has been arranged as part of the dedication ceremonies for the division memorial to its dead who fell at the town of Belleau. About 350 members of the division have signed up for the trip and they will be headed by Maj. Gen. Clarence Edwards, their former commanding general.

At Belleau Woods,

It was eleven years ago that doughboys of this division twisted through a confused tangle of barbed wire across mudholes and shell-torn earth in the German lines. And some of them never returned.

It was American combat division, the 26th or Yankee division helped take and hold the area. The battle according to allied military strategists was a critical one and marked the final decline of the German armies.

In this battle the old church that stood at Belleau was blown to pieces by shell fire. The new structure on the site of the old has been designed by Ralph Cram assisted by a group of French architects to typify the quiet which peace brings.

## "BEHOLD, I SEND MY MESSENGER AND HE SHALL PREPARE THE WAY BEFORE ME" — Malachi 3:1

By DR. ALVIN E. BELL

The books of Malachi and Nehemiah should be read together, for they form respectively the last pages of Old Testament prophecy and history, born of the same social and religious corruption and at almost the same time.

Malachi ministered about four hundred years before Christ and but a few years after the close of Nehemiah's ministry.

Both dealt with the priests' defilement of their office. The people's de-

lement of the home through mixed marriages with idolaters, and the general contempt for and neglect of the offerings and services of God's house.

The key which unlocks the message of Malachi is the word "wherein," which is found in the book seven times in as many impudent and arrogant replies of the people in which they deny the prophet's charges against them: "Wherein hast thou loved us?" 1:2; "Wherein have we despised thy name?" 1:6; "Wherein have we polluted thee?" 1:7; "Wherein have we wearied him?" 1:17; "Wherein shall we return?" 3:7; "Wherein have we robbed thee?" 3:8; and (in the Revised Version) "Wherein have we spoken against thee?" 3:13.

Thus the people entered a general denial to all the prophet's charges of religious, moral and social corruption.

In their self-righteousness they were utterly unconscious of any fault in the matters for which he rebuked them.

Surely this was the darkness of spiritual night, but it was that darkness which just precedes the dawn.

The first faint streaks of that dawn are indicated in Malachi's prophecy of Christ's near approach, preceded by his forerunner, John the Baptist: "Behold I will send my messenger, and he shall prepare the way before me; and the Lord whom ye seek shall suddenly come to his temple, even the messenger of the covenant, whom ye delight in; behold he shall come, saith the Lord of hosts."

Then from his mountain top of prophetic vision Malachi spies the full glory of the approaching sunrise, and with a joyful shout announces it to the people living in darkness: "Unto you that fear my name shall the Sun of righteousness arise with healing in his wings."

Four hundred dark years of oppression and cruelty were suffered by the Jews at the hands of various world powers before the fulfillment of this prophecy of the sunrise in

the coming of Him who claimed, "I am the light of the world."

By Central Press.  
NEW YORK, Sept. 20.—The famous *The Woman of the Hall-Mills*—is a goat woman now. She specializes in goats instead of sausages on the hoof. Her health is indifferent and when Jane isn't having breakfast in bed, the girls can look after themselves. She has just bought a new Chrysler car and on fine afternoons whizzes thru New Brunswick, never failing to pass the courthouse—the scene of her dramatic "death bed" appearance.

Willie Stephens (or "Mr. Stephens," as he prefers to be called), another principal in the famous murder case, is back at his old office in the New Brunswick firehouse, where he whites away life jabbing pegs into a cabbage board.

**SPOOFING THE COMMISSIONER**  
New York cops are getting a good laugh out of Willard Mack's new radio, "Voice of the City." The villain is a double-crossing, low-down, teeth-grinding, no-good racketeer, is made up, mistakes and gardenia, modish garb and grin, to "double" for The Prettiest Police Commissioner New York Ever Had. The real kick the cops are said to get out of the picture occurs at the close, when the bullet of a "bull" sends "Grover" into New Jerusalem, or points south.

**OF COURSE**  
The traffic guardian of one of the city's busiest corners—where 40 cars a minute whizz past him, north, east, south and west, completes his eight-hour shift, repairs to the station house, does his *Batrymores*, goes home, eats his dinner and then scatters back to the scene of his daily toil, where he stands for an hour or more watching the cars go by.

**WE'RE ALL ALIKE**  
The duchess reports that while waiting for a bus on the nation's ritzy, she observed automo-

bles from 28 states passing. And the occupants of every car, she avers, slowed down to take a squint at the star—Mrs. Jane Gibson—is a goat woman now. She specializes in goats instead of sausages on the hoof.

## THOUGHT IS THE YOGUE In Damage Suit Against Actor

### Case Against Clara Bow's Fiance Is Settled Out Of Court

(International News Service)  
**PITTSBURGH**, Sept. 20.—The \$250,000 damage suit filed by Ellen Franks, Pittsburgh dancer, against Harry Richman, actor and fiance of Clara Bow, motion picture star, has been settled out of court, it was learned here today.

Counsel for Miss Franks would give no indication whether a cash settlement was made, but it was known that Richman's lawyers have been negotiating for a settlement for the past few weeks.

The suit charged that Richman forcibly imprisoned Miss Franks in the compartment of a railroad car enroute to Cleveland, and otherwise mistreated her. Richman was believed to be confined to a hospital at Hollywood. Miss Franks could not be located for a statement.

**HE WINS**  
While his fellow scribes were squandering dough drawing to inside rights, or keeping the pockets of speakeasy barons jingling with their hard-earned ducats, Charlie Samuels, erstwhile police reporter, was bending over his vintage portable typewriter bating out a novel which he calls "A Prantic Young Man"—dealing with a lad who makes a stab at crime in the big city and fails.

The book clicked. The critics hailed it as a "wonder" and now Charles has turned his back forever (let us hope) on police stations and has pio- ter dessert every night and ice cream on Sundays.

## Fear Lindberghs Will Hit Hurricane

(International News Service)  
**WASHINGTON**, Sept. 20.—Col. Charles A. Lindbergh and his bride probably will run into a violent hurricane somewhere on the north coast of South America if they continue their southern tour, Herbert Janvrin Browne, independent "long distance" weather forecaster, announced today.

"Col. Lindbergh is going to the worst possible place at the worst possible time," said Browne. "It is a foolish thing to fly in that area now. The cold wave which is moving out into the Atlantic will meet the area of warm air always present as far north as the Tropic of Cancer, and produce conditions which will make a hurricane highly probable. It will move westward to the coast of South America."

**MacMillan Back  
From Far North**

(International News Service)  
**NEWAGEN**, Me., Sept. 20.—Donald B. MacMillan and his nine arctic explorers arrived Thursday from the far north aboard the famous schooner Bowdoin.

MacMillan stated that he had definitely ascertained that Sir Mortimer Frabisher, English explorer, had established a sizable colony on the Labrador shores in 1576. MacMillan said the stone foundation of the main building was still standing.

Use imagination and a little sugar to make vegetable foods delicious

Few things are more important than balanced diet in promoting health

**COOKING** experts are using their ingenuity to develop delicious methods of preparing vegetables. A well-known expert furnishes us this recipe for Polish Beets:

Peel 12 small cooked beets and mince fine with a fork. Put in a saucepan and sprinkle with a tablespoon of sugar. Add a tablespoon of vinegar, 1 tablespoon of salt and pepper and heat. Melt 2 tablespoons of butter and blend with it 1 tablespoon of flour. Stir this into the mixture. Add  $\frac{1}{2}$  cup sour cream and heat.

Whatever recipe you are using and whatever vegetable you are cooking, try adding a dash of sugar for a new, enjoyable flavor. This is an old secret recently rediscovered. It is not the purpose of the sugar to make the vegetables taste sweet. The dash of sugar brings out the delicate flavor of the foods and blends these with the seasonings used. Sugar is the master blender and the supreme condiment. It is the right hand of successful cookery.

Serve a varied, balanced diet—at least two cooked vegetables and at least two fruits daily. See that each member of your family drinks milk and eats milk desserts. You can often make meals more appetizing by adding a dash of sugar while cooking. Use a dash of sugar to improve meat gravies, sauces and soups. # MacDonald Will Be Unaccompanied

British Premier Will Bring  
No Officials With Him  
On Visit To Wash-  
ington

International News Service  
LONDON, Sept. 20.—Premier Ramsay MacDonald has virtually decided to take no officials to Washington with him. International News Service learned this afternoon. It is understood that the MacDonald party will consist of the following persons in addition to the Premier: his daughter, Ishbel; his secretary, Rose Rosenberg; and his bodyguard, Inspector Dew, of Scotland Yard.

Following his return from Sandringham where he and his daughter were guests of King George and Queen Mary overnight, the Premier held another conference with United States Ambassador Charles Gates Dawes upon naval disarmament affairs.

The Premier is expected to hold additional conferences with the American diplomat before his departure on the liner Berengaria on Sept. 28.

The Premier is giving much thought to the form of the official invitations to France, Italy and Japan.

## Renew Efforts

### For Prohibition

"Hot Teddy" Months Approach  
Signal For Renewed  
Activity

By ROBERT S. THORNBURGH  
International News Service Staff  
Correspondent

WASHINGTON, Sept. 20.—Approach of the "hot-teddy" months has caused another council of war to be held at Prohibition Commissioner James M. Doran's headquarters.

Chicago and Detroit were designated as the main fronts of attack while less spectacular battles were indicated in New York and Philadelphia and other large centers where illicit booze is said to flow aplenty. Two dry officials from the Chicago section—Federal Attorney George Johnson and Alexander Jamie, chief of special agents—are enroute to their headquarters today with a determined mind.

It is probable the slogan of the new campaign is "dry up your territory by Thanksgiving," but Doran wouldn't say. His plans for a gigantic drive are complete, it was indicated, but he declined to give details. The government does not care to "give away its hand."

While officials today declined to discuss the situation indications were that the prohibition office would make an effort to get into closer liaison with U. S. Attorney Charles F. Tuttle at New York, the justice department at Philadelphia, and possibly some other cities of the middle west and Pacific coast.

The objective would be to map out a plan of clean up action to wipe out, if possible, the larger sources of bootleggers' supplies.

BUTLER, Pa., Sept. 20.—Frank Michmink of Brackenridge, on trial for involuntary manslaughter in connection with the death of Miss Helen Lillian Sanford, 18, of Lakewood, O., last July 4, in an automobile accident on Cranner Hill, west of Butler, was acquitted by a jury this afternoon.

Under the terms of the verdict Michmink will be required to pay into Butler county court the costs in the case.

Michmink was arrested after an automobile driven by Miss Sanford left the road on the hill, crashed against the bank and overturned, killing her almost instantly. Mercedes and Joseph Arturo of Sharpsburg testified that Michmink drove his automobile past them on a hill and that he crowded Miss Sanford from the highway.

Charles J. Polisky and his sister, Eva Polisky of New Castle, testified that they were coming towards Butler and that Miss Sanford, driving at a high speed, lost control of her car and went from the highway. Michmink told the jury that he did not know of the accident until he was arrested later in the day.

In the case of George Benedict of Beaver Falls, who was charged with the baying of a dead dog, valued at \$350 from Homer Gardner, 608 East Avenue, Benedict changed his plea to guilty contention after a part of the testimony had been heard. Benedict had pleaded not guilty when the case was called, but after a verdict was rendered in another case in which he was charged with a similar offense, he changed his plea. He will be sentenced later.

### CHICKEN LOST 16 YEARS; OWNER GETS \$1.80 CHECK

(International News Service)

HARFORD Sept. 20.—Motor vehicle department records here show week-end accidents in Connecticut this summer were showing some signs of abating. The four chief outdoor months of 1928 yielded a total of 3,691 accidents that took a toll of 50 human lives. This summer the total was 3,139 accidents with 46 deaths.

July week-ends this year brought death to 18 persons where last year the July week-end accidents killed 14.

### ACCIDENTS DECREASE IN CONNECTICUT

(International News Service)

ROCHESTER, Ind., Sept. 20.—Mrs. Solomon Keel of this city has just received a check for \$1.80 in payment for a chicken that wandered away and never returned 16 years ago.

A neighbor killed the chicken and his wife cooked it for dinner. Recently this neighbor's wife, now living in Indianapolis, suffered twinges of conscience. She therefore sent Mrs. Keel a check.

## Flood Of Alibis Follows Arrests By Motor Patrol

HARRISBURG, Sept. 20.—A large portion of the mail received daily by vision. Capt. Wilson C. Price, Superintendent of the State Highway Patrol on Labor Day Capt. Price stopped a New York licensed car which failed to stop at a through-highway intersection.

"I beg your pardon," said the officer, "but in Pennsylvania we expect drivers to bring their vehicles to a full stop at signs of that sort," and he pointed to the marker the driver had ignored. "Because you are from another state I am merely warning you that you may get into trouble if you do not obey the law."

"That's All Right." "Oh," laughed the driver, "that's all right—that's all right. I'm the constable in this town, and I'm merely showing some friends from New York the scenery."

This particular constable was called upon to show his card, and within the next few days he paid a fine and costs.

Great political pressure was brought to bear in the case of a 14-year-old youth charged with driving a motor car. It was explained that he should be excused because his mother's chauffeur accompanied him. State officials refused to interfere, however.

During the last three or four weeks even when the boy's mother was arrested, charged with permitting an unlicensed person to drive her car, violating the requirement that cars

come to a full stop at intersections discontinued the practice of arresting marked with the regulation "Stop" bus drivers on view.

The alibis they forward to drivers are detected in law violations.

Capt. Price and other Harrisburg officials are sometimes quite original, however, but summonses are issued.

One driver, for example, declared that when he understood the stop-order was op-

erative only when other cars were usually bemused the fact that he was passing on the main highway. Four had no money, and he deplored the offense say they "did not see the go no farther because he would sign."

Patrol officials are constrained to wonder how much larger and more instant effect on the occupants

how much yellower the sign must be of the bus, who "clipped in" and

paid the fine and costs themselves, rather than suffer delay. This fact coming to the attention of the patrol orders were issued that arrests on view cease.

Patrolmen have orders to watch bus drivers very carefully. A recent arrest was made that of a busman on the William Penn Highway in Cambria county. Approaching a 14-foot bridge at Winterstet, he saw a small touring car coming from the other direction, but closer to the bridge than he. Increasing his speed and sounding his siren so confused the small-car driver with his clamorous approach that a serious accident was narrowly avoided.

"There is an absolutely certain way to avoid arrest by a motor patrolman," said Capt. Price today. "Drive as you would have others drive, and obey the law."

"Reply Cards For Airmail Get Okay"

(International News Service) BOSTON, Sept. 20.—Use of business reply cards by air mail, suggested to the Postmaster General by the Boston Chamber of Commerce committee on Postal Facilities, has proved popular with many business concerns which obtain the greater part of their income from direct sales, according to a letter from the American Transport Association, which is composed of all transport operators.

"The ruling of the post office department that business reply cards

may be sent by air mail has proved

popular with many business concerns which obtain the greater part of their income from direct sales," the letter said.

"The postage on cards is paid by the original sender, who also pays one cent rate for the privilege of receiving orders by air.

"Firms which have tested out the air mail return card as against regular mail have found that the returns are much greater when sent by plane."

## Uniform Marriage, Divorce Law Urged

Lawyer Denounces "Crazy" And Patched Statutes In Talk On Radio

CLEVELAND, Sept. 20.—A plea to discard our "crazy quilt" divorce laws and "patchwork" marriage laws and replace them with a national uniform law for both marriage and divorce, was made here recently by Arthur A. Miller, of the Cuyahoga County Bar Association.

"In Florida 21 is the minimum age for getting a marriage license, but in Georgia it is only 14," Miller said. "What chance has Florida of enforcing its laws when a few gallons of gasoline and a second-hand roadster will take its boys and girls to Georgia and return them as man and wife, sometimes for better, but usually for worse?"

Mechanical and tire trouble experienced by those seeking a Georgia Green, has done more than the law in preventing hasty and ill-considered marriages and cutting down the divorce docket, Miller said.

As to divorce, South Carolina grants no divorce on any ground, while North Carolina has four grounds and Vermont 14.

Miller said it might require an amendment to the Federal Constitution to provide a uniform law, but better this, he asserted, than what we now have.

## Prisoner Asks 20 Days More In Jail To Drive Liquor Out Of System

WASHINGTON, Sept. 20.—Returning from jail, where he had been serving a short sentence on a charge of intoxication, Charles C. West requested that he be returned to the institution for 20 days, when he appeared in Police Court and was questioned by Judge John P. McMahon concerning his condition.

Arrested, West asked that he be sent to the hospital or to jail to recover from the effects of liquor. Judge McMahon granted the request, but West was returned to the Police Court from the jail in order that the Court might determine the effects of his brief confinement.

"How do you feel after being in jail to get the liquor out of your system?" queried the Court.

"Not so well, your Honor," replied West. "All the liquor is not out of me yet. I wish that you would send me down for 20 days."

## Milkmen Still See Horse As Best Aid

(International News Service) TORONTO, Ont., Sept. 20.—Modern civilization, with its tendency to cast the horse and use motor vehicles, will not affect the milk industry. The horse with his excellent memory and faithfulness, will still be the method of transportation for the milkmen, R. E. Little, executive secretary of the International Association of Milk Dealers stated, prior to the convention here October 24, 25 and 26 of the milkmen from New Zealand, Canada, United States, Great Britain, South Africa and Cuba.

Research men from the University of Illinois, Ohio State University, Ontario Agricultural College, Canadian Department of Agriculture at Ottawa and the Dairying Bureau at Washington will attend the sessions at the Royal York Hotel, largest in the British Empire.

Methods of sterilization of milk and values of pasteurized milk will be discussed.

Little, the executive secretary, said horses are better than motor drawn vehicles for the milkman, because from daily tours horses remember where they should stop to wait for the milkmen and often start and stop entirely without the guidance of man, thus minimizing the work of delivering milk and saving the milkmen many extra steps.

## Two Sewing Machines Stolen From Store

NEBRASKA CITY, Neb., Sept. 20.—The theft of one sewing machine is not uncommon or anything to get excited over, but when two are taken from the same place within a week, then the plot thickens.

And in this case the plot has thickened to such an extent that the local police are mystified.

Last week a large, bulky sewing machine, valued at \$180, was taken from a local store without any of the doors or windows being tampered with. No clues of any kind were left. A few days ago a portable machine was missing in the same mysterious manner.

Where the machine might have disappeared or what time of the day is still unknown. The owner of the store is completely without explanation.

Antiquarian Declares Mummy Was Buried Because It Was Moth-Eaten

PARIS, Sept. 20.—After devoting his life to finding the hiding place of Cleopatra's mummy, an antiquarian here has just announced that the famous Queen lies buried in an unmarked grave in the garden of the National Library, Paris.

The plaintiff is C. F. Christianson, cashier of the People's Bank of Dixon and owner of the sheep, and the defendant is B. F. Pruitt, of Dixon, owner of one of the dogs.

The case now is known as Missouri's most costly dog case. It has been carried to the Supreme Court twice and has been tried twice in Circuit Courts.

According to his story, which he says is based on documents and the verbal evidence of a friend of his, who lived during the French Com-

pany, Cleopatra's mummy, enclosed in a magnificent sarcophagus, was Klondyke gold fields in the gold rush.

## III Health Causes William A. Snyder To End Suffering

Link Between Old Baseball Days And New

Earl Mack, left, son of Connie, and Connie himself in Athletics dugout.

By WILLIAM RITT  
Central Press Sport Editor

NEW YORK, Sept. 20—Connie Mack's baseball career began when he was a lanky lad of 21 came to the manager of the Meriden, Conn., Eastern league baseball team and told him he wanted to catch for Meriden.

The manager looked young Connie over with a critical eye. He knew a ball player when he saw one. Connie got the job.

That was 45 years ago—in 1884 to be exact. Since that long ago summer Connie has not missed a season in baseball, first as a catcher, then as a player-manager and since 1897 as bench manager.

There is little doubt but that Mr. Snyder's mind had been affected by his long illness, and it is not believed that he was responsible for his act. He was well known throughout the city and had many friends who sympathized deeply with the bereaved family.

Mr. Snyder was born in Philadelphia, Pa., May 20, 1880, a son of Charles and Mary Chew Snyder. He had been a resident of New Castle for about fourteen years and had been an employee of the Bell Telephone company.

He was affiliated with the Masonic fraternity being a member of the Lodge of the Craft, Consistory and Syria Temple.

Besides his wife, Bertha M. Jones Snyder, he leaves two daughters, Bertha Florence and Elizabeth Virginia, and his mother, Mrs. Charles Snyder. Funeral services will be conducted from his late home on Court street, Saturday, September 21 at 8 p.m. The funeral party will leave this city on Sunday for Berlin, N. J., where additional services and interment will be made on Monday.

Home plates were made of marble when Connie first crouched behind them. Batsmen were allowed to have flat bats. No player save the

owner of the new Athletics.

### Sidewalk Contract Is Awarded By City

City Orders Work Done Along  
Number Of Properties In  
Different Sections

Council met today in city building and awarded a contract to Concrete Products company to build sidewalks and bring sidewalks to grade. Two different prices will be charged, a price of 16 cents in some sections and 15 cents per square foot in others. Charles Benson Sons bid 18 cents per square foot.

The sidewalks will be built at the property of J. Clyde Gilfillan, Garfield avenue; W. H. Abel, North Mercer street, and property of the High, Arlington and Wilmington avenue. This will cost 15½ cents. Along city property in Wilson avenue it will cost 16 cents. Long avenue sidewalks will be brought to grade for 16 cents per square foot.

### GIRL SENT BACK TO HER HOME

A girl named Ross Mars, who ran away from her home in Chillicothe and has been staying here with relatives, was picked up Thursday evening by Detective John Young, and Officers Longstreth and Mrs. McKibbin as a result of complaints made about her conduct here. She was charged with disorderly conduct and was this morning sentenced by Mayor Gillespie to pay a fine of \$50 or spend thirty days in the county jail on a charge of disorderly conduct. Sentence was suspended when she agreed to return to her home in Chillicothe, which she did this afternoon.

Had Made Brave Fight Against  
Ravages Of Disease For  
Over Six Years

While suffering from a nervous breakdown induced by a long period of illness, William A. Snyder, aged 40, at 425 Court street, shot himself through the head with a .32 calibre revolver Thursday evening about six o'clock. Mr. Snyder, who was an electrical engineer employed by the Bell Telephone company, has been in poor health for over six years. He was suffering with a complication of diseases. At times he was able to work and at others he was unable to leave his home.

He had made a gallant fight against the diseases which were slowly but surely undermining his health. Recently he had been confined to his home, but on Tuesday was able to go out and vote, his home being located almost opposite the court house where the voting for his precinct was done. Yesterday he was in his room the greater part of the day. He was able to walk around but appeared to be more depressed than usual. Members of the family had been with him the greater part of the day, but at supper time he insisted that he be left alone. Members of the family were eating supper when a shot was heard and on running upstairs Mrs. Snyder found her husband lying on the floor.

Sheriff H. M. Reynolds, who lives across the street, was called and a physician was notified. The doctor found that Snyder had shot himself through the head. The bullet passed entirely through, coming out at a point below the right temple and striking the top of a door. Sheriff Reynolds picked up the bullet on the floor. Mr. Snyder kept breathing for two hours after the shooting, but was unconscious all that time. There was nothing that could be done for him. Indications were that he had stood before a dress mirror when he had fired the fatal shot.

There is little doubt but that Mr. Snyder's mind had been affected by his long illness, and it is not believed that he was responsible for his act. He was well known throughout the city and had many friends who sympathized deeply with the bereaved family.

Mr. Snyder was born in Philadelphia, Pa., May 20, 1880, a son of Charles and Mary Chew Snyder. He had been a resident of New Castle for about fourteen years and had been an employee of the Bell Telephone company.

LITTLE RIVER, Fla., Sept. 20.—Small life in Florida and Cuba is vanishing in many localities as forests are being stripped from the land. Students of the creatures will have to rely upon material collected years ago, according to C. T. Simpson, formerly of the National Museum and now

a private investigator. He has spent more than 30 years studying snails.

"Man has wrought great destruction to the hammocks in which trees still live," he said, "so that certain forms are almost exterminated in

Florida."

"Great areas of forest have been cut recently in Cuba in order that sugar cane might be grown, and it is wide, he believes that the creatures

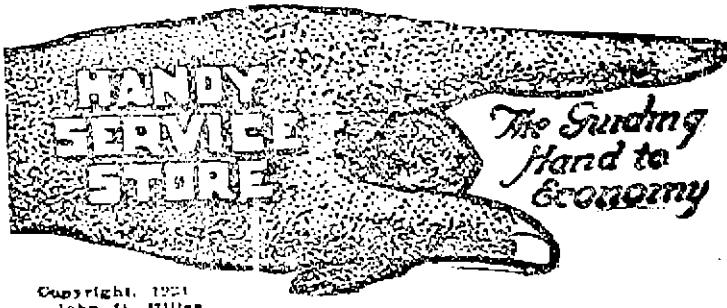

are carried on trees and limbs across the stretch.

Although Florida is separated from Cuba by a deep channel 90 miles

farther west, he said, "Cuba's private secretary, Mrs. Mary Sanders, receives the bulk of the \$50,000 estate. A daughter received \$5,000, but the widow was cut out. Coler, who died a month ago, operated a string of grocery stores."

<b>\$75,000 FOR CEMETERY</b>
SANDUSKY, O., Sept. 20.—In his will, probated here Thursday, the late Frank S. Peters, Milan township farmer, directs that his estate go to the Milan Village cemetery association, owning and maintaining the cemetery in which he was buried.
The principal is never to be spent and the Peters family lot is to be kept up with as much of the inter-

est it draws as may be needed. With what is left, the cemetery trustees may make improvements elsewhere about the place from time to time.

According to estimates today, the estate is worth about \$75,000.

RAVENNA, O., Sept. 20.—Fabio Fiordelo, 64, Youngstown, was accidentally shot and seriously wounded in the face Thursday afternoon while hunting in the woods at Hiram, Portage county.

He was brought to Ravenna hospital.

According to an announcement from Harslburg, Pa., the bids for the construction of about half a mile of highway near Cascade Park and the road to the bridge on the Harslburg road have been awarded to the low bidders announced several days ago.

The principal is never to be spent and the Peters family lot is to be kept up with as much of the inter-

ests it draws as may be needed. With what is left, the cemetery trustees may make improvements elsewhere about the place from time to time.

According to estimates today, the estate is worth about \$75,000.

## Human Cannon Ball Terribly Injured

Mechanism Goes Wrong And  
Performer Will Probably  
Die

International News Service  
SPRINGFIELD, Mass., Sept. 20.—Death radar hovered over the cot in Springfield hospital where lay Heinrich Ackenhausen of Hanover, Germany, "human cannon ball," who was horribly mangled while being shot from the mouth of a cannon at Eastern States Exposition.

Ackenhausen, substituting for Captain Wilhelm Wilho, another "human cannon ball," who was incapacitated by a broken arm suffered in a similar accident a month ago, sustained a fractured skull and a fractured jaw. Hospital physician feared that Ackenhausen probably would not survive another 24 hours.

Fully 25,000 persons, including Captain Wilho, witnessed the accident. Instead of being shot out of the gun by a spring, just a moment before the charge of gunpowder was exploded, the human projectile was thrown only to the mouth of the cannon, where, when the cloud of smoke rolled away, he was seen to be hanging by his toes, his face badly mangled.

Police said the accident was caused when the powder was accidentally set off before, instead of after, release of the spring.

## Illinois Improves 1,344 Miles Of Road

International News Service  
SPRINGFIELD, Sept. 20.—Illinois, with a total of 1,344 miles of road improved during 1928, ranked fifth among her sister states in such construction work. Figures recently released here reveal. The country's total mileage of roads improved was 20,252 miles.

Texas stepped into the lead with 2,356 miles, Kansas was second with 1,745 miles, Arkansas third with 1,673 miles, Iowa fourth with 1,345 miles, Illinois fifth with 1,344 miles, Minnesota sixth with 1,243 miles, North Dakota seventh with 1,230 miles, New Mexico eighth with 1,052 miles, Kentucky ninth with 1,021 miles and Ohio tenth with 922 miles.

With last year's mileage, the nation's total of roads is 365,442 miles, of which total 193,138 miles were surfaced roads, 31,755 miles graded and drained and 81,549 unimproved and partly graded.

Total cost of the nation's road work in 1928 was \$764,641,324 of which approximately \$556,000,000 was for new construction and rights of way.

## ST LOUIS HORSE SHOW TO ATTRACT 500 MOUNTS

International News Service  
ST. LOUIS, Sept. 20.—The St. Louis National Horse Show will be held here in the fall.

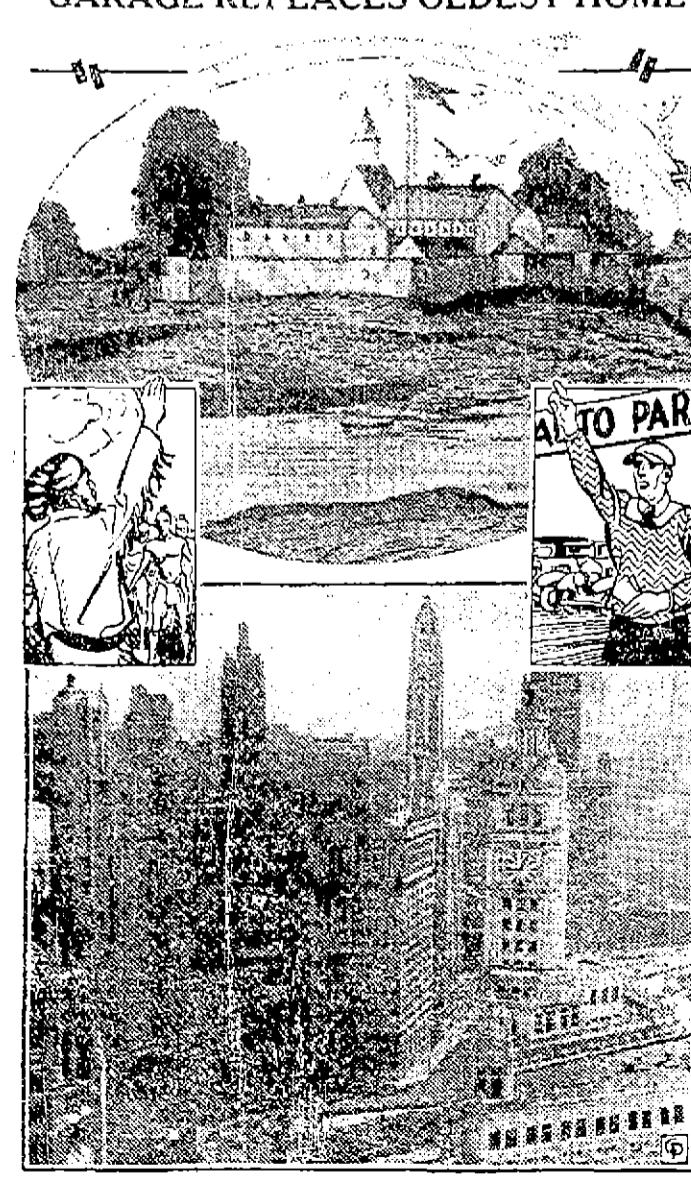

More than 500 pounds are expected to be entered in the show. Already the entry list shows 100, according to August A. Busch Jr., chairman of the Executive Committee.

A total of \$35,000 in prizes will be given to the winners. The largest purse is \$10,000 which will be awarded to the winners of the saddle event. The show will hold 110 events in the nine days that it will run.

## WOMAN GAME WARDEN LEADS IN CONVICTIONS

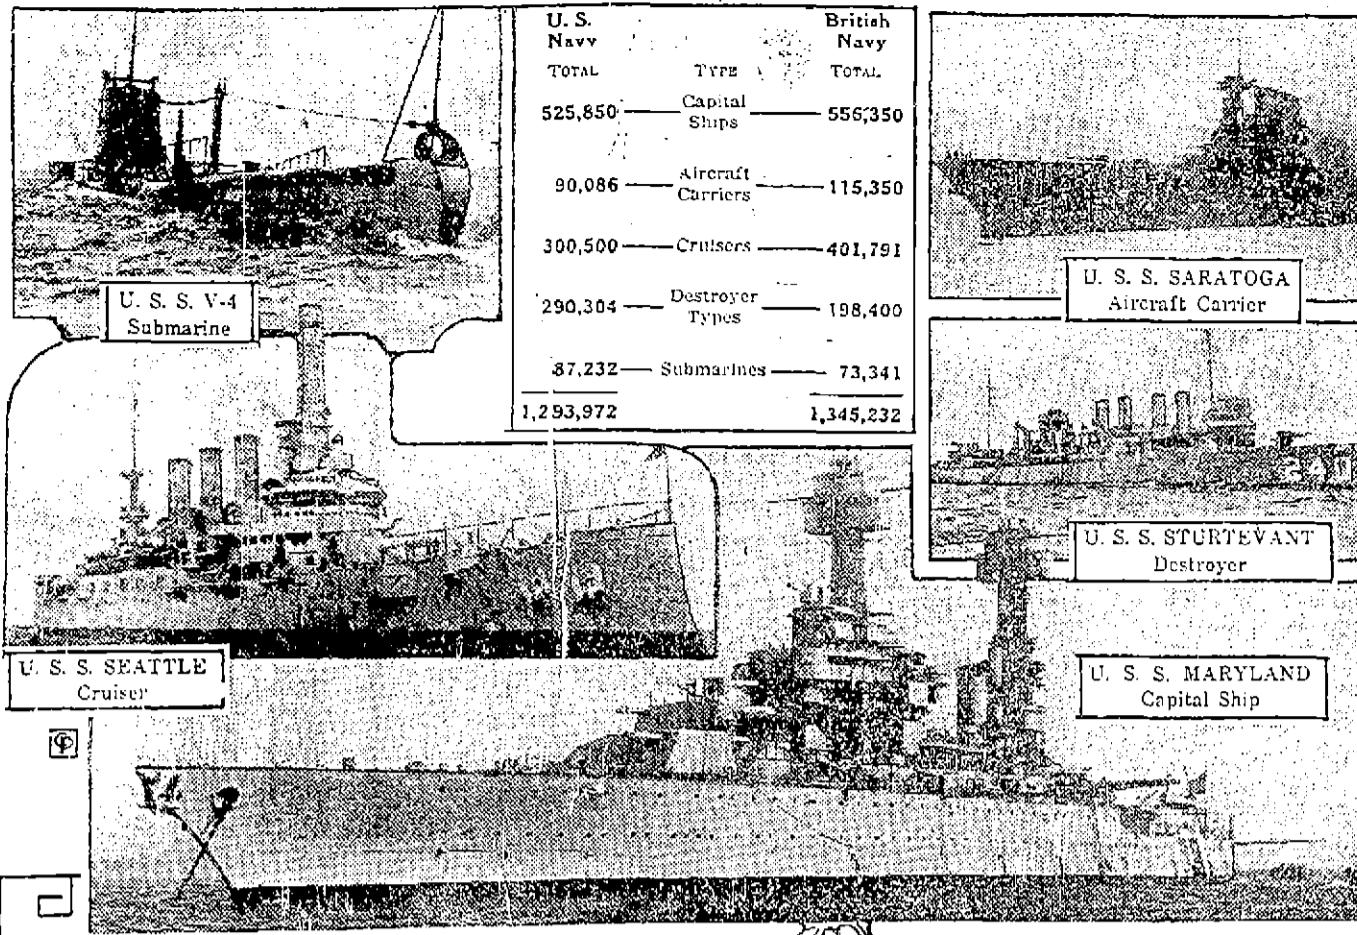

International News Service  
FAIRFAX, Calif., Sept. 20.—One of the most active game wardens in the entire state of California is Mrs. Walter E. Sellmer. In two years service she has a record of about 75 arrests and nearly as many convictions. She is the state's only woman warden.

### New Superintendent Of Organiza- tion Will Assume Duties Then

Mrs. H. T. Frushour, new superin-  
tendent of the Women's Aid of the  
Erie and Ashtabula division of the

Pennsylvania railroad, will preside

over the local organization for the  
first time at its opening fall meeting,

which is scheduled to occur on Tues-  
day afternoon, Sept. 24, at the Y. W.  
C. A. The hour is set for 1:30 p. m.,  
eastern standard time.

Mrs. F. J. Perry, head of the train-  
master's department, will be in charge  
of the program for the day. It is de-  
sired that every member make it a  
point to attend, since plans for a  
dance and bazaar on October 26 are  
to be formulated at this time.

Ladies from all over the division  
will be in attendance.

### "TUTTLE'S" HAS NEW FACE FOR STUDENTS OF YALE

International News Service  
NEW HAVEN, Sept. 20.—The exterior of "Tuttle's," famed institution of Yale students, has been made new, this summer, and decorated with period designs. In niches be-  
sides second floor windows on a fifty-  
foot front are set carouss jugs with  
church warden pipes rampant.

Besides the third floor windows are set  
gin bottles of Holland extraction, and  
above the entrance a gleaming row of  
ale bottles that really date.

Nowadays "Tuttle's," behinds its  
new front, still carries the old  
interior that Yale men still travel  
miles just to visit.

One of the wonders of the present  
day is what happens to a crowd im-  
mediately after the parade passes.—

# Evil Spirit Still In House After Woman Loses \$290

Swallowing Stranger's Story, Victim Of Swindler Draws Savings From Bank And Sees Money Vanish Down Road In Automobile Bearing Ohio Tags

SCRANTON, Sept. 20.—Because there was an evil spirit in her home she is poorer to the extent of \$290. The money was stolen from her by a stranger woman who told Mrs. Ford she had powers to drive out the spirit and that, once this was accomplished, Mrs. Ford's home life would be much happier.

Mrs. Ford did not have any money in the house when the stranger came. She had \$290 in the bank, and the stranger said the sum could not be completed without money. Mrs. Ford, accordingly, went to the bank, took out the money, and hurried home. The stranger said the money would

be returned when the spirit was gone.

The program to be carried out follows: Tenor solo, Ennis Davies; selection, ladies chorus; piano solo, Miss Anna May Smith; reading, William P. Williams; tenor solo, Evan Hopkins; trio, Morgan Jones and family; contralto solo, Miss Florie Davies; reading, Griff Thomas; selection, male chorus; duet, Miss Cecelia Hughes and Daniel Hughes; piano solo, Mrs. Horace Evans; reading, Mrs. Frances Cope; baritone solo, Griff Jones; selection, ladies chorus.

The choruses taking part in the program will each number about 30 voices and have been carefully trained in the selections to be presented at this time.

## Children Display Fall Styles At New Castle Store

Brother And Sister Outfits Are  
Featured At Children's  
Style Show

Even the tiny tots have not been forgotten when it comes to the fall and winter styles. This fact was proven at the style show Thursday afternoon at the New Castle Dry Goods Company, when children between the ages of two and six were used as living models to display the newest cuts and colors for the well-dressed child.

Featured in the show were the Eddie coats, made of Kenwood blankets, for little girls, in pink blue and orange, and the brother and sister outfits in two-toned jersey, which are both practical and attractive.

Circular capes are found on many of the coats for the little misses, with tight-fitting hats of the same materials. For school there are the wash dresses with checks and plain colors, which some mothers prefer, or the smart cut woolen dresses, in reds, greens and browns, combined with velvet jackets.

Many dainty colors were shown in the little party frocks for girls, made of crepe de chine, set off with ruffles and ribbons.

For the boys, suits, browns and greys, in knits and tweeds, are favored, with coats of blue chinchilla, with shiny brass buttons and tight helmets to match.

Something new and decidedly becoming for the tots of two and three years are sport outfitts with striped sweaters and tamis to match.

No longer is it difficult to find just the right thing for the tiniest tot or the growing child.

## Woman Kidnapped 30 Years Ago Is Finally Discovered

AUCKLAND, New Zealand, Sept. 20.—Kidnapped by Maoris in childhood and eventually married to a native chief, a white woman has been restored to her relatives after nearly 30 years.

When a child of six Caroline Perrott went to tend the cows on her parents' farm at Taranaki, in the north island of New Zealand. She disappeared from them until recently no trace of her was found.

A niece of the missing woman saw a European woman with the Maoris at Taneatua. She asked the woman to show her neck, as she knew that when a child the aunt had fallen across a hot grate, which left a scar. The woman bore this mark.

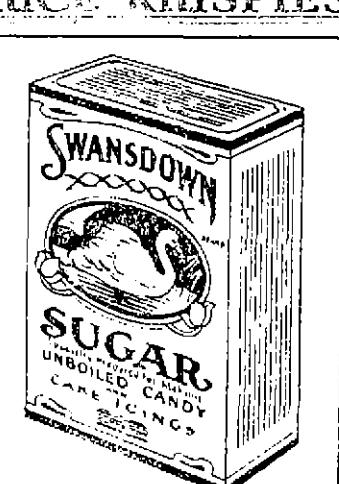

She had married a Maori chief and had two children. The chief had died recently.

## Very Interesting Program An-nounced For First Congre-gational Church

Following the regular preaching service at the First Congregational church, East Reynolds street, next Sunday evening, September 22, a sacred concert will be held in that church in which some sort of the very best talent of the city will participate.

The concert will commence at 8:45 p. m. and the splendid program arranged will include not only solos and readings but also numbers by the male chorus and the ladies chorus of the church. These choruses have been heard before and have always been highly commended for their most excellent work.

Councilman D. O. Davies will be

chairman of the program and John M. Evans accompanist.

The program to be carried out follows: Tenor solo, Ennis Davies; selection, ladies chorus; piano solo, Miss Anna May Smith; reading, William P. ## OFFICIAL BOARD STARTS COUNT

Work Of Counting Vote Cast  
in Mercer County Is Under Way

MERCER, Pa., Sept. 23.—With only two small districts outstanding that teacher certification bureau, G. Veltman checked return of the Mercer county primaries of Tuesday shows a winner for jury commissioner and Harvey Rain of the present board of poor directors, Republican party nomination.

The following is the vote: Emery, 3,024; Brown, 2,781; Stark, 2,540. McKain for poor director had 3,816; Morgan, 4,730.

The official counting board begins its duties Friday at noon in the office of the commissioners. The board members are: L. E. Rickard, Mrs. Myrtle Jarrett, Stanley Patterson, Mrs. Edna Buchanan.

### EXPENSIVE VOTING

Voting in Wilmington township cost \$1.55 per ballot, the records show. There were but 20 Republican ballots cast at the primaries of Tuesday.

### CLOSE VOTE

But two votes separate Jerry Welk and B. Lytle, Democratic party contestants, for the office of jury commissioner. Under the law each of the major parties is entitled to a seat on the board, so a nomination in the Republican and Democratic parties is equivalent to an election. Welk has 90 in 92 precincts out of 97, and Lytle 88. The third contestant, Olive McCoy, polled 285 votes. The official count will be necessary to settle this contest. Welk is a member of the present board. He has served in this capacity for 20 years.

## LIFE RUINED BY NEGLECT

Kellogg's ALL-BRAN—  
Simple Remedy for a Wide-  
spread Evil!

Many a man has suddenly realized that he was losing out—all because he neglected constipation too long. This evil scourge starts with such little things. A headache. A listless morning. A cloudy complexion.

But all the while it saps strength, kills initiative, steals ambition. And if allowed to continue to poison the system, it may bring on serious disease. Women know it as the deadly enemy of youth and beauty. Men, as ability's cruellest foe.

Don't let it ever prey on you. Guard against it. You can—with a delicious cereal. Kellogg's ALL-BRAN is guaranteed to prevent constipation—to promptly relieve it. Just eat two tablespoonsfuls daily—chronic cases, with every meal.

ALL-BRAN is 100% bran. Doctors recommend it. Serve with milk or cream. Use in cooking—muffins, breads, etc. Delicious recipes on package. Grocers sell it. Restaurants, hotels, dining cars serve it. Made by Kellogg in Battle Creek.

## Service Bureau To Curb Crime Chicago's Plan

By PIERRE JOHN HUSS  
International News Service Staff Correspondent

CHICAGO, Sept. 20.—The ceaseless search for a way to nip crime in the bud in large American cities has led to a new experiment in Chicago. The prosecuting attorney's office, in cooperation with municipal organizations, has established what is called the Youth's Service bureau, organized on the theory that partnership of the boy in the street and the policeman on his beat is the best crime barrier.

"Help the policeman become the pal of the boys and girls on his beat and crime will be greatly reduced," State's Attorney John A. Swanson, largely responsible for the new step, told International News Service in explaining his plan. "As their friend and helper, he will turn their minds toward wholesome things and right characters will result."

### Minister in Charge.

The Rev. Charles A. Gage, a minister of wide experience in the crime prevention field, will be in charge of the bureau. Outlining the aims and purposes of the organization, he said:

"The Youth's Service bureau is born out of a desire to create between the policeman on the beat and the boys and girls a better and more wholesome understanding. The policeman must be imbued with the desire to help every youthful citizen avoid the path which means crime and ruin. Crime does not pay. It costs in character, in manhood and the peaceful pursuit of happiness. The boys and girls must learn that the policeman is not just a 'cop' but is their friend and helper, giving guidance and pointing out a path for training for real manhood."

"The field of service of this bureau is in home, school and club and nowhere is the character of such service political or partisan or sectarian. To keep a boy from going wrong is infinitely more commendable than using corrective methods on him after he has gone wrong."

### To Be Helpful.

"We will seek through every available channel to create an atmosphere of helpfulness away from delinquency and crime. To do this we must have not only the whole-hearted cooperation of the police department but also the constructive influence of every civic organization, the personal contact of our teachers in the public schools and playgrounds, and others interested in the welfare of youth."

"The Youth's Service bureau has chosen as its field of service all youth, inviting it to bring before it its problems of home environment and inner life. Help and guidance will be extended. The bureau invites youth to confer with it upon a vocation, dilemma or social tangle."

An advisory board with representatives from all municipal and civic organizations on it is being created. The juvenile officers must of necessity be large and vital adjunct.

"A speaker's committee for the purpose of disseminating facts and purposes will be a part of and represent the advisory board of committee. It will be the aim of the bureau to influence the officers of the precinct police stations that they may undertake a definite district duty."

## Accident 11 Years Ago Just Reported To Police

(International News Service)

INDIANAPOLIS, Sept. 20.—Eleven years after their daughter Helen Wright, 15, of this city, was injured in a fall from a wagon her parents reported the accident to police.

The girl suffered a nervous attack and became unconscious several days ago and the parents notified the police. The girl then was taken to the City Hospital for treatment.

## CHILD WINS SHOOTING HONORS

GLORIA F. TROUPE

At the age when most boys and girls are memorizing their A, B, C's, little seven-year-old Gloria F. Troupe, of Raymore, Mo., is becoming nationally famous for her rifle shooting ability. Rifle association officials say she will receive the decoration of "expert riflemen" before she is eight years old. Her father taught her to shoot.

## Malaria Helps Paralysis Cases

(International News Service)

OAKLAND CITY, Ind., Sept. 20.—Probably a world's record was set at the Williams family reunion when ten children assembled with an average of 74 years.

The ten were Thomas J. Williams, Dodge City, Kansas; William A. Williams, Ft. Morgan, Colorado; Mrs. Elizabeth Lopez, Oakland City; Mrs. Robert F. Steel, Oakland City; Henry L. Williams, Kingman, Kansas; Mrs. Mary Harper, Oakland City; Mrs. J. W. Jerrell, Kingman, Kansas; Mrs. Harriet Maxam, Princeton, Indiana; Mrs. Sol. D. Johnson, Petersburg, Indiana, and Mrs. Robert F. Wallace, Kingman, Kansas.

"The treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state."

"The response in individual cases," he states, "varies from a negative result to apparent complete recovery."

Over a period of five years 1,597 cases have been treated in this manner. Of this number 3.9 percent died. Of those 40.8 percent are still in hospitals, and 25.3 percent were discharged. Five out of six of the discharged cases still retain life and liberty.

INDIANA PREACHER HAS CHAMPION FISH STORY

(International News Service)

MT. VERNON, Ind., Sept. 20.—Rev. S. Caldemeyer, a local minister, today was given credit for the son's champion fish story.

Believe it or not, but a trot line dropped into Hovey's Lake without bait netted the minister a gar, a carp and five catfish!

The fish bit on bare hooks," the minister asserted.

The preacher said he dropped the trot line into the lake without baiting the hooks after efforts to secure minnows failed.

HORSES ARE SCARCE ON HARD ROADS OF ILLINOIS

(International News Service)

EDWARDVILLE, Ill., Sept. 20.—One of the rarest sights on the hard roads of Illinois today is a horse.

A seven day traffic check by county highway officials here reveals that during the seven day period a total of 149,736 vehicles passed the checking points. Of that total only 78 were horse or mule drawn vehicles, the remainder proceeding under their own power.

### Await Decision In Coal Rate Hearing

(International News Service)

PITTSBURGH, Sept. 20.—With testimony on railway traffic problems and competitive conditions in areas affected by proposed changes in freight rates on Lake Erie shipments from Connellsville coal mines, hearing of the protest of the W. J. Rainey, Inc., and South Fayette Coal company, brought yesterday before W. R. Brennan, examiner for the interstate commerce commission, against the Pittsburgh & Lake Erie and Pennsylvania railroads, closed.

A decision is expected from Washington after the commission receives a transcript of the testimony and hears Mr. Brennan's report.

Disputed rates on brick and related articles are before the same examiner today. A projected increase by the Pennsylvania on freight rates for such shipments to Pennsylvania, Ohio and West Virginia points, which was to have taken effect August 8, has been suspended until March 8, 1930.

Protestants in the coal rate case brought up points to indicate that the charges were not based upon the railroads' operating cost. Charges brought by the Melrose mine of the South Fayette Coal company that the Connellsville rate had not been attached to mines similarly located, who enjoy the Pittsburgh rates, resulted in a new district allotment by the roads, who raised the rates for the neighboring mines, notably the Clyde mines of the Rainey corpora-

tion, instead of reducing the rate for the Melrose mine.

John R. Maust, general executive vice president of the Rainey interests, stated that under present operating conditions in order to counteract the increased freight expense his company would be obliged to reduce the wage of every miner and loader one dollar a day.

Subjects covered in yesterday's testimony were distance of haul, length and capacity of trains, grade and curvature of the roads and quality of coal in the section for domestic and by-product use.

The difference in the rates for the Pittsburgh and Connellsville districts amounts to eight cents a net ton, or \$500 a day on an estimated output of 6500 tons for the ten miles.

#### OBEYING ORDERS

A soldier was on sentry duty for the first time in his life. A dark form approached.

"Halt!" he cried in a threatening tone. "Who are you?"

"The orderly officer."

The orderly officer advanced, but before he had proceeded half a dozen yards the sentry again cried, "Halt!"

"This is the second time you have halted me," observed the officer. "What are you going to do next?"

"My orders are to call 'halt' three times and then shoot!" was the reply.

**ORPHAN HUMMING BIRD IS BEING FED ON HONEY**

(International News Service)

EVANSVILLE, Ind., Sept. 20.—A tiny humming bird that was orphaned by one of nature's unchronicled tragedies, daily is being fed honey by Mrs. Sam Schnelle of this city.

The little feathered midget was on the verge of starvation when found by Mrs. Schnelle. She fed it honey from a spoon and the bird gradually grew stronger.

The humming bird, now full grown and strong, according to Mrs. Schnelle, darts daily out of a tree and sips honey from a spoon held by Mrs. Schnelle. The humming bird answers her call at mealtime without delay.

## Wisconsin Judge Refuses To Sanction Farm Wife Trade

Chippewa Falls Jurist Denies Divorces To Man And Woman Who Sought Release To Marry After Two Couples Had Swapped Mates

CHIPEWA FALLS, Wis., Sept. 20.—Social conventions have won a victory in county court. Judge D. L. Cook refused to sanction a will trade which started the country last November. Judge Cook refused to grant divorces to Edward W. Heidelberger and Mrs. Bessie Brown two of the principals.

The divorcees would have cleared the way for legalizing through new marriages the wife trade by which Mrs. Brown and her five children went to the Heidelberger home in exchange for Mrs. Heidelberger and six children who removed to the Brown home.

Since November the Judge learned

Mrs. Brown had been Heidelberger's housekeeper and Mrs. Heidelberger was serving in like capacity for Brown. Mrs. Brown told the Judge her husband suddenly told her that Mrs. Heidelberger and her six children were coming to their home to keep about it but that he preferred that she leave the premises. Mrs. Brown acquiesced she said and when Mrs. Heidelberger and her six children arrived she went to the Heidelberger home.

Both Mrs. Brown and Mrs. Heidelberger today retained their status as housekeepers.

## Entertainment To Feature National Legion Sessions

Many Interesting Events Arranged For Visitors To Convention City

New Castle Legionaires who are figuring on attending the national convention of the American Legion at Louisville Ky., will find plenty of entertainment features awaiting them on their arrival.

A number of special tours to famous nearby Kentucky shrines such as the birthplace of Lincoln, the Old Kentucky Home, Mammoth Cave and other places of interest have been arranged by the Legion convention committee.

Then in addition there will be a great military flying circus, American Legion handicaps, Churchill Downs bugle and drum corps contest, tournaments of various kinds and many other things which will keep the delegates busy.

The parade which will be one of the most colorful events at the convention will occur on Tuesday October 1, starting at 10 a. m. It is expected that Pennsylvania will be represented by at least 20 bands and bugle corps in addition to several thousand Legionnaires.

Monday night, September 30 will be observed as Pennsylvania night when the Pennsylvania delegation will form a parade at the Union station and proceed through the central part of the city to the Hotel Kentucky, where a Pennsylvania ball will be held.

**Musicians Strike Ties Up Theatres**

Philadelphia Hours To Be Dark Until October 1 At Earliest

PHILADELPHIA, Pa., Sept. 20.—All hope for settlement of the theater musicians strike before October 1 was definitely abandoned yesterday.

Managers here announced cancellation of the booking of four dramatic and four musical productions scheduled to open here September 30. The shows were rerouted to other cities.

The announcement made by Thomas Love with Samuel Nixon-Niedlinger acting as spokesman for the theater interests will add several more dark weeks to the seven already accumulated this season.

This means actually that Philadelphia will not see a legitimate show until at least October 15.

It was pointed out that in the event the theater manager-musicians differences were settled immediately no show could be booked here until the runs of those already booked and rerouted had expired. And no settlement is in sight.

The strange thing is that a piece of modern millinery, about 6½ inches in diameter, must be carried around in a hat box two sizes smaller than a kennel.

to pass because you failed him?

Poor boy! Now he's back again to the unfair struggle. Will YOUR boy have the wearisome prospect of doing last year's work all over? Or will he just barely "get by" with the constant threat of failure to harass him in his studies?

Is he naturally dull? No, not necessarily. Three out of every four children who are "slow" in school need glasses. That's all. If he fails, the chances are three to one that it is because he failed him. End the unfair struggle! Have his eyes examined.

## System Meet To Take Pennsy Nine

Games For Friday And Saturday Cannot Be Played; Suggest Meeting

The P. R. R. team will be unable to play games on Friday or Saturday of this week due to the fact that the system field meet at Altoona is scheduled for the latter day.

The Pennsy team and fans would like to know if the agreement under which the series was to be played is going to be carried out or if the commissioners have started something they do not intend to carry out.

Plans for the series were announced and everything ready to commence. The Pennsylvania team suggests that a meeting be called and things be thrashed out at a meeting on Monday evening at 6:30 o'clock, daylight savings time.

## Free Woman Driver In Automobile Case

MIDLAND, Pa., Sept. 20.—Mrs. Myrtle Curry, Erie street, East Liverpool, was dismissed by Justice of the Peace J. P. Finegan, Midland, after an inquiry into the death of William White, employee of the Keystone Contracting company, Georgetown, who was fatally injured in an automobile accident at Smith's Ferry, Saturday night.

No charges were preferred against Mrs. Curry, driver of the car, although she posted a \$500 bond for her appearance in court when she returned to Midland to report the accident. Attaches of the state highway patrol of Beaver Falls, who made an investigation of the accident, reported to Justice Finegan that White was as much to blame for the accident as Mrs. Curry.

## Goes To Prison For Signalling Witnesses

BEAVER, Pa., Sept. 20.—Because Charles Lewis, Beaver Falls, charged with bringing two Pittsburgh girls to Beaver Falls for improper purposes, signalled to witnesses during his trial, he will have to serve out his sentence of four years in the penitentiary, it was learned Wednesday.

Judge W. A. McConnell, in sentencing Lewis, said the court had been inclined to parole Lewis until he learned from a juror that Lewis had been making signs to witnesses, apparently in order to influence their testimony.

## ENON VALLEY

The ladies of the Christian church missionary and aid societies held their September meeting Thursday at the home of Mrs. Henry Young in Old Enon. It was an all-day meeting with a covered dish dinner at noon and was especially well attended. The devotional meeting was in charge of Mrs. Henry Zeh and papers dealing with the work in South America and Africa were discussed.

The Happy Circle class of the Christian church Bible school resumed their regular monthly meetings at a very enjoyable gathering at the church basement Friday evening, Sept. 6. After the business session the class indulged in an old-fashioned spelling bee, after which a delicious lunch was served by the committee in charge.

Mr. and Mrs. Schmade and two cousins of Pittsburgh spent Sunday at the home of Mr. and Mrs. Ed. Becker and Mr. and Mrs. George Becker.

Mr. and Mrs. James Dutch are making their home at present at the home of John McNuse.

Mrs. Sarah Gealey was removed to her home from the Jameson Memorial hospital Saturday. Her condition is little improved.

Rev. and Mrs. Davidson spent Saturday in New Castle.

Mr. and Mrs. Eugene Daniels, son Billy and daughters, Peggy and Betty, were week-end visitors at the home of Mrs. William Imbeden.

Mr. and Mrs. Ross entertained for the week-end Mrs. Wein and children, Noel Daily and Miss Harrison, all of East Liverpool, O.

Dr. and Mrs. McGeorge and family of Ambridge spent the week-end with relatives here.

Mrs. William Inboden and sister, Mrs. Daily, visited in Beaver Falls Saturday.

Charles Madden visited in New Brighton Sunday.

Messrs. James and Wallace Madden were in Pittsburgh one day last week.

The grippe epidemic, while somewhat abated, still prevails in this district.

Francis Coblenz of the U. S. navy has been visiting the past month with relatives and friends here.

Mrs. William Marshall entertained at dinner Wednesday Mrs. Ella Madden and son, Wallace and daughter Margaret. Edward Marshall, together with Wallace Madden, leaves next week to enter the senior year at Hanover Medical College.

Hugh Marshall has accepted a position with the Andrews Ford agency as salesman.

The polls Tuesday were well visited throughout the day. On the Republican ticket the following men were named in Little Beaver township: Frank Wilson, tax collector; Wendell Walker, school director; Clarence Scott, inspector of elections; Charles Stewart, auditor.

### WOMAN 97 VOTES AT RECENT PRIMARY

ALTOONA, Pa., Sept. 20.—Miss Sarah C. Miller, a resident of the Presbyterian Home, Hollidaysburg, who is now 97 years of age, exercised her right of franchise on Tuesday when she visited the polls in the Sixth ward, Altoona, and cast her vote.

## Bleriot Plans One-Day Flight Over Atlantic

By FREDERIC K. ABBOTT  
International News Service Staff  
PARIS, Sept. 20.—Louis Bleriot, pioneer French pilot, first flyer to cross the English Channel now proposes Paris-New York in twenty-four hours.

This is to be done, according to Bleriot, with the aid of a floating island twelve hours out of Paris. Here his plane, a four motor biplane, will land, refuel and twelve hours later land on Roosevelt field.

"I do not believe in the future of the Zeppelin," says the Frenchman, who is now one of France's largest airplane manufacturers. "It is certain that for the moment the dirigible is ahead of the plane for trans-Atlantic crossings but I believe that this supremacy is merely temporary."

Waited On Graf.

"It was wisest to wait the outcome of the Zeppelin world tour before saying too much but when we recall the sad endings of other dirigibles and the sacrifices made for what I believe to be a false conception one remains sceptical as to the commercial use of these mastodons of the air."

Bleriot admits that he may be accused of prejudice.

"Nevertheless," says the French manufacturer, "I did not hesitate to tell the British Air Minister the other day that I was doubtful as to the success of the two dirigibles the English

islands planned.

"I am working in close harmony with an American concern," says Bleriot. They are making the islands I am making the planes.

"We hope eventually to have an island every five hundred kilometers but the planes do not necessarily have to land on each one. It can skip as many as desired."

"In case of motor trouble my plane can drop its motors and wings and at once become a water-tight boat which can float on the surface of the water indefinitely."

M. Bleriot says that it is the intention of the inventors to build islands with hotels where tourists may pass weeks "in the ocean air."

Students Cheer  
For School Team

First Football Pep Meeting Of Year Is Held At Senior High

Noise was plentiful at the senior high school on Thursday when the first chapel of the school year was held. The assembly was a football chapel in which the players were wished the best of luck for the coming grid season. Ralph Brice who is the head of the cheerleaders, led in cheers.

After Principal F. L. Orth conducted devotions he made a few statements concerning night football in New Castle. He stated that he thinks the new plan will add much to the comfort of the players as well as the people. "It is warm during the month of September in the afternoons and it is hard on the fans to watch a game when the weather is warm and in this way playing in the night will take care of this condition as it is cooler in the evenings."

Following Fred Orth was Ralph McAuley who stated that he wishes that all the student body would support the team this year.

Benny Ciccone, veteran center was next called on and he wished that the team this year would meet with success.

Ralph H. Gardner, faculty manager explained the seating arrangement at the Ben Franklin stadium. He stated that he desired that everyone would support the team by attending the games.

Coach Phil Bridenbaugh was the next speaker and he said that the material was green this year but during the last few days the players seemed to have pep and were getting together more. He ended his speech by stating that if the student body would support the team and that the eleven this year would win the first three games he assures the students that they will have a good team for the remainder of the season.

Following is a list of the cheerleaders who will aid Ralph Brice, Neal Sturdy and Bob Sypher; Dominic Isoldi, Antil Lelenko and Loren Kannenberg.

Following are the players who were present: Benny Ciccone, Regis "Red" McAuley, Art Alexander, Merle "Red" McIntosh, Harold Bury, George Deep, Mike DeMucio, George Jones, George McIntosh, Charles Shep, "Baldy" Watson, Ben DiThomas, Ema Sandru, Harlan Mooney, Dick Thomas, Nick Uram, Tom Diffley, George Bender, Bob Hoose, Ludwig Ostrosky, Honus Wagner, Ben Nessel and Bob Jamison.

**Code System Proves Phone Time Saver**

(International News Service)  
BOSTON, Sept. 20.—A system of codes, employed by long distance telephone operators throughout the country where ever there are Bell operators, has proved a great time saver when used both orally and in making reports on toll tickets, the American Telephone and Telegraph announced.

As result of the code system, any toll operator stepping to a position at the switchboard to relieve any girl on duty, can glance at the tickets at that position and instantly understand the nature and status of each one of the connections she finds "up" at that position. These codes are a combination of letters so arranged that information or instructions are condensed into the briefest possible space.

As an example of such codes "AB" indicates that the customer is calling a firm and that he "will talk with anyone who can talk business." "AX" means that he will talk with anyone. "BX" indicates that the called party's line is busy, "DA" means does not answer, and "DS" that the telephone is disconnected.

Sometimes the annotation "GW" appears on the slip. This means "send the messenger if called party is not there leave message."

**VETERAN'S WILL REPAYS FOR KINDNESS SHOWN**

(International News Service)  
LYNN, Mass., Sept. 20.—The old adage about "casting thy bread upon the water and it shall be returned a hundred fold" was forcibly proved here when a 16-year-old girl was bequeathed \$10,000 for kindness she had shown to an aged man in his last days.

When the will of Thomas Kenney, 91, a Civil war veteran, was read, it was found that all had been left to Rose Bruni, 16. Her mother, Frances Bruni, was named executrix.

Mrs. Bruni and Rose cared for Kenney in his last days.

# HOPE TO MAINTAIN LOW DEATH RATES

HARRISBURG, Sept. 20.—Present indications point to a mortality rate for 1929 in Pennsylvania no greater than that of 1928, in spite of the heavy death rate from influenza and pneumonia in January and February. According to figures released today by the Bureau of Vital Statistics, the general death rate in the first two months of the year was far above the average for these months, but in each of the months since February the death rate has been the lowest on record.

The infant mortality rate seems likely to reach a new low record this year. In the first six months of this year the number of infant deaths reported was only 1,282 as compared with 7,895 in the same months of 1927, the previous low record year for infant mortality. The death rate from diarrhea and enteritis under the age of two years has been lower in every month of this year than in any corresponding month on record. In June there were only 70 deaths from this cause in the entire state with a death rate of .85 per 100,000 population. This was the first month since records have been kept that the death rate from this source of infancy has fallen below 1 per 100,000 population. Before 1922 the smallest number of infant deaths from diarrheal diseases ever reported in any summer month was 300 and the low record monthly rate was 412.

Of the diseases of adult years, heart disease deaths have been running slightly higher this year than in 1928. Cancer is also taking a heavy toll of life which may bring the rate for the year from this cause to a new high record. Except in January nephritis deaths were fewer than last year. Diabetes which recorded a high record mortality in 1928 is also falling below the figures of that year.

For pneumonia and influenza the rate for the year will be comparatively high because of epidemic conditions in January and February, but during the spring and summer monthly rates from these causes have been unusually low. Tuberculous deaths, while high in January because of deaths hastened by the complication

## Killing Buck Proves Much Cheaper Than Hunting For "Stag"

HARRISBURG, Sept. 20.—While American millionaires are cursing the scarcity of "stags" on Scottish moors a lot of Pennsylvania hunters who paid but \$2.00 for the privilege will have real "buck shooting" during the coming season, John J. Slaughterback, executive secretary of the Board of Game Commissioners, today asserted.

As he made the assertion Slaughterback pointed to a story from London which told of the constantly increasing prices being received by descend-

ants of Scottish nobility for hunting preserves. In almost every case cited the sales had been made to citizens of the United States.

Slaughterback said he doubted if there is any appreciable difference in the thrill between killing a "stag on a moor" and "toppling a buck" in a Pennsylvania mountain.

**Cancelled Checks Show That Judge Was On Payroll**

NEW YORK, Sept. 20.—Cancelled checks showing that General Sessions Judge X. Mancuso, was on the payroll of Frank M. Ferrari, late president of the located City Trust Company for \$1,000 a month, have been discovered. It was learned late Thursday.

A "dozen or more" \$1,000 checks thus paid Mancuso in 1927 and 1928 were in the lot, it was stated.

The sensational documents were found among hundreds of others of Ferrari's personal checks in a safe deposit vault held in Ferrari's Atlantic State Bank, Brooklyn.

**Probing Charges In "House Of Torture"**

MEMPHIS, Tenn., Sept. 20.—Charges that the Settlement Industrial home here for negroes was a virtual "house of torture" were under investigation today by the county attorney general's office following allegations filed against the superintendent of the institution.

Miss Georgia Tann, executive secretary of the Tennessee Children's Home Society, charged in papers laid before County Attorney General W. Tyler McLain, that inmates of the "home" were placed on hot stoves, made to stand in hot ashes, and subjected to other tortures as punishment for misdemeanors.

Bessie Simon, superintendent at the institution was held responsible for the alleged tortures in Miss Tann's charges.

**Other States Study Fish Propagation**

HARRISBURG, Sept. 20.—Pennsylvania's methods in fish propagation continue to attract attention from almost every State in the union. N. R. Buller, commissioner of fisheries, today asserted.

Recently representatives from Michigan, Massachusetts and Virginia made careful studies of hatchery methods in this State. They were particularly interested in the recently perfected methods used in the raising of daphnia, the essential natural food in bass propagation.

**TWO SMALL BOYS HELD FOR COURT FOR MANSLAUGHTER**

PATERSON, N. J., Sept. 20.—Two small boys were arraigned in police court here, charged with manslaughter.

The boys, Thomas, 4, and Julius Fiorillo, 6, are alleged to have kicked Frank Lopresto, 5, in the abdomen, August 24, four days before he died. Frank's mother, Mrs. Lopresto, filed charges against her child's former playmates.

Thomas and Julius were paroled in the custody of their father pending action of the grand jury.

**MISSING GIRL FOUND**

BOSTON, Sept. 20.—While a statewide search was underway for five-year-old Elizabeth Adams, who was believed kidnapped while enroute from school, the child was found unharmed Thursday afternoon on a doorstep.

Thomas and Julius were paroled in the custody of their father pending action of the grand jury.

The Story Of The World War  
119—Bread Riots In Petrograd

ARCH 8, 1917. SERIOUS RIOTS BROKE OUT IN PETROGRAD DUE TO THE SCARCITY OF FOOD IN THE RUSSIAN CAPITAL. EIGHTY THOUSAND WORKMEN STRUCK AND MILLED ABOUT IN THE STREETS SHOUTING "BREAD!" BY THE NEXT DAY THE NUMBER OF STRIKERS HAD INCREASED TO TWO HUNDRED THOUSAND. MANY ACTS OF VIOLENCE WERE COMMITTED.

REGIMENTAL ROOPS WERE SENT TO DISPERSE THE RIOTS. THEN THE UNEXPECTED HAPPENED. SOLDIERS REFUSED TO FIRE ON THE MOB AND JOINED THE STRIKING WORKERS. THE MUTINY IN A FEW DAYS SPREAD TO OTHER REGIMENTS OF THE PETROGRAD GARRISON. IN THE RISING DISORDER THE MUTINIOUS SOLDIERS AIDED THE MOB AGAINST THE POLICE.

RODZIAKHOV, THE SPEAKER OF THE DUMA, TELEGRAPHED THE CZAR AT THE FRONT THAT ANARCHY REIGNED IN THE CAPITAL, AND IMPLORIED HIM TO PERMIT A NEW GOVERNMENT TO BE FORMED. INSTEAD OF COMPLYING, THE CZAR SENT ORDERS TO THE COMMANDANT AT PETROGRAD TO QUELL THE RIOTS BY FORCE.

PRILITZIN, THE PRIME MINISTER, ACTING UPON INSTRUCTIONS FROM THE CZAR, ORDERED THE DUMA TO ADJOURN. THIS ATTEMPT TO DISSOLVE THE REPRESENTATIVE BODY ENRAGED THE MASSSES AND TURNED WHAT HAD BEGUN AS A FOOD RIOT INTO A POPULAR MOVEMENT TO OVERTHROW THE GOVERNMENT. A HORDE OF ARMED STRIKERS AND MUTINEERS RALLIED TO DEFEND THE DUMA. THE RUSSIAN REVOLUTION HAD BEGUN!

TOMORROW—THE RUSSIAN REVOLUTION.

# GROVE CITY PLAYS NE-CA-HI TONIGHT

## GROVE CITY HAS SEASONED ELEVEN

Cicone Last Year's Center Only Varsity Member On Ne-Ca-Hi; McAuley To Play Quarter; Dunn To Be Grove City's Chief Threat; Clash Will Start At 8:30 P. M. Fast Time.

By ED FRITZ

**K**ING FOOTBALL, thrilling o'l soul who enters the life of every red-blooded sport enthusiast each September will make his entrancing debut tonight at Ben Franklin field when New Castle and Grove City high clash in the season's inaugural.

The first gridiron tilt of the season finds Coach Bridenbaugh with a green eleven and Coach Joe Hartman with 10 varsity men. Evidently the game which starts at 8:30 p. m. fast time and beneath a flood of giant floodlights will be something of a close game.

In the past New Castle has entered the field with circumstances different, almost always having had more than one varsity man from the year before. This season, Cicone, center, eligible for only four games will be in the lineup. McAuley, a reserve, will start at quarter.

Grove City high, in addition to having 10 varsity men numbers among them Dunn, a sensation from last season. He is versatile at full or half-back and no doubt he will be a threat from first to last whistle.

Drilled for Weeks

Coach Bridenbaugh has been drilling his team for weeks. During their preparatory work at Muddy Creek Falls they were taught the fundamentals and during the past few weeks have been driven hard by Phil and his two able assistants, Klee and Thomas.

After Hartman returned from Montreal where he pitched for Montreal in the International, he put extra work in on the Grove City team, and they're coming here all "pepped up."

They know that the New Castle Red and Black is good looking but green and hope to take advantage of every "break." Having been beaten last season 51 to 7 it would please Grove City beyond imagination were the visitors to clinch up a victory.

Ne-Ca-Hi Confident

Bridenbaugh has instilled a lot of confidence into his outfit. But he has not allowed them to become overconfident due to Ne-Ca-Hi having won past contests. He expects them to settle down to hard work as soon as the game begins and keep at it throughout.

Just because the Red and Black is composed mostly of green material however, is no reason to feel unduly alarmed as many of them are former junior high stars and have shown in practice just what they can be expected to do and when the game starts everyone will be there playing hard for Ne-Ca-Hi.

The probable lineups:

New Castle — Center, Cicone; Guards, Binder and Hart; Tackles, Deep, Cunningham and G. McIntosh; Ends, Mooney and Jones; Quarterback, McAuley; Halfbacks, Thomas and Alexander; and Fullback, M. McIntosh.

Grove City — Center, Glasgow; Guards, Rosequist and Murphy; Tackles, French and Beatty; Ends, Clarkson and Sproul; Quarterback, Milner; Halfbacks, Dunn and Bohlander and Fullback, Kenmure.

## HERE AND THERE IN SPORTS' LAND

By ED FRITZ

Pete Mazza, who has fought here often, will box Louis DiSantis, Ohio featherweight, in the main six-round bout in Cleveland's popular prizefight at the public auditorium tonight.

Hundreds turned out to see the floodlights at Franklin field last night. The first game will be played amid unique circumstances. The success of the system will be judged by fans of the visitors to clinch up a victory.

Howard Mayberry, former New Castle bantamweight, last night stopped Paddy Dempsey of Ambrose in the fifth round at McKeesport. Mickie Solomon fended Lee Sala in the fourth round.

Hack Wilson and Rogers Hornsby won't quit. Hack wants to break the home run championship and Hornsby wants to stretch the scoring record. They're with Joe McCarthy's champion Cubs.

Jimmy Hackley, Pacific coast junior lightweight champion, wants to fight Maxie Strub here and Billy Jones wants a return. Hackley and Strub ought to set the fans on fire.

The press box at the Franklin stadium is for persons who belong there and no one else. This season persons who do not belong in the stand should stay out. They interfere with boys who write games.

NEW YORK, Sept. 20.—Here's one for the books—all five feet of them. Here's one that should make Mr. Believe It Or Not Ripley chuckle with glee?

Many fans who have seen Allen go to Erie say he can't, and expect to see a fight in which flashy hand and footwork will add a touch of dash to the semi-final. The semi-final would be a good match for the smaller clubs in this vicinity.

Romeo Pucci, the snakish fighter of the South Side, will try to inveigle Tommy Duffy of Cleveland into a knockout. Duffy is not a scinned fighter, but a good puncher. Romeo yields a good right, but he depends on speed and cleverness to win points.

Romeo in Shape

He has been training for two weeks and should be in the best condition of his career, and Duffy, a rehired Irishman, is also in shape. The "holdovers" from last Monday night should have no reason for not being able to go along at top speed for six rounds.

A year ago Roy Minter looked very good, beat Long Sing Que and having a fancy for Midgie Wolcott's style fooled himself as he tried it. Having been advised that he does best when he gives and takes, he will try it on Jim Folans at 118 pounds in a four-round.

Milton Gaston held the Indians to six hits as the Red Sox triumphed 3 to 2.

NIGHT FOOTBALL

SYRACUSE, N. Y., Sept. 20.—The first and second Syracuse football squads will play a regular four-quarter game tonight to test the flood lights that will illuminate the fields on Saturday night when Syracuse and Hobart inaugurate the 1929 grid season.

## Burns And McKenna

Fans To See Hard Punching Middleweights At Bowl

## Priming For Monday

When fans enter Bill Jolly's emporium of swat Monday night they will see Johnny Burns, California'sistic star, and Jack McKenna, Canadian, who sent Henry Firpo flying to the canvas for a count of nine. It looks as though the middleweight fracas has caught the fancy of fans and there'll be a crowded bowl if not an actual sell-out.

There are reasons for this, too, first of which is that the California Italian-American is probably the best middleweight turned out of California in years, and second, McKenna surprised the Firpo clement, then known to Chicago and said it with gloes to Bobby O'Hara.

McKenna is no kid in the ring, as he knows his stuff from P to C. He's a ringwise chap who is long on punch, a little deficient on science, but tough as hickory and one of those middleweights who is apt to knock out anyone, though he be reeling on a heel.

He is akin to George Chip when the former middleweight was in his prime. "Gawge," as his dislikes to be called, was never great on science, but he was a puncher and therefore dangerous every second. He scored knockouts many times when he had been punished badly.

Has Met Topnotchers

Burns has fought Bert Colma, Leo Lomski, Joe Roche in California, truly three of the best fighters in the game. He met Haaken Hansen and trounced him at Chicago, then walked off with Rene De Vos recently and lost a draw decision by one close round.

Yesterday Scotty Monticelli, promoter of Detroit, asked that Burns fight Harry Ebbets, New York City, there which would have resulted in this bout going aside. However, Burns said he had contracted to go here and would keep his word—despite a big money difference.

The Perito element is pulling for a Burns victory over the Canadian, not because they have any lack of respect for McKenna, but because they believe that Firpo, once having refused to meet Burns, would be forced to box him were he returned a winner.

They have not forgotten the terrible lambasting that the Louisville lad gave Perito and since that night have been aching to see Firpo paid back. Burns, according to reports, is like McKenna, a demon in action and relentless.

De Neri Battles Dandy

Jack De Neri, one of the best looking featherweights who has appeared here, will return with Dandy Allen, a "dudish" colored lad of Philadelphia as his opponent. Jack stopped Zivis Anthony in his last fight at the bowl, but can he stop Allen?

Many fans who have seen Allen go to Erie say he can't, and expect to see a fight in which flashy hand and footwork will add a touch of dash to the semi-final. The semi-final would be a good match for the smaller clubs in this vicinity.

Report Big Bet On World's Series

(International News Service)

AT NEW YORK, Sept. 20.—The first big bet placed on the impending World Series recorded here late Tuesday.

J. S. Fried & Company, a Wall Street firm, reported a bet of \$15,000 against \$17,500 that Chicago would win the series from the Philadelphia Athletics was placed by them for a middle western man.

With the Yankee stadium resembling nothing so much as it did an Eskimo Iglo, the White Sox put the Browns on ice, 7 to 0. McKinney held the Hugmen to four singles, all scattered.

Washington scored two in the last half of the ninth to pull out a 2 to 1 winner over the Browns. Blaeholder and Melillo executed a triple play in the ninth.

Ray Kolp limited the Pails to four hits as his fellow Redlegs turned in a 4 to 0 win.

Brooklyn and St. Louis were not shocked.

Simmons was the only regular in the Athletics line-up as they defeated the Tigers, 5 to 4. Burns, playing first for the new champions, made two hits, two runs and eleven put-outs.

# FIRST TILT MAY DECIDE WINNER OF WORLD SERIES

Should Athletics Lose Their Chances May Be Rather Poor

If Chicago "Blows Inaugural" It Will Be Fatal To Chances

**By DAVID J. WALSH**  
International News Service, Editor  
NEW YORK, Sept. 20.—Starting but to talk about defense today, the writer can't seem to get away from the fact that there isn't any if the other guy lays you like an axminster with the first punch.

And it strikes me, as the fellow complained when he had examined the revolving door with the end of his nose, that no other world series known to baseball has had more authority riding with one game than figures to be the case when the Cubs and Athletics first meet on October 8 in Chicago. That particular ball contest should strip the rest of the program of all illusion and leave it bare to the eyes of the world. It should be the great convincer. Thus by the way, has been the case in about twenty-one of the twenty-five series played to date.

If the Athletics lose it, their chances will be less than poor the rest of the way, with the second and final two games scheduled for Chicago and the Cubs beaten by their initial victory. If the Cubs blow it, the incident will be practically fatal, what with the third, fourth and fifth games coming up in Philadelphia where the Athletics are figured to be virtually unbeatable. It is the rather complex characteristics of the contenders that makes all of this not only possible but probable.

Therefore, what price comparisons when one game may decide everything? The best they can do is indicate which club might be likely to get the break at the outset but in order to really know this, one would have to know definitely what men are to be pitched and what they will do after they get out there. In other words, you can't level a com-

Hartnett, in condition, would be much different matter. But I am assuming that Hartnett won't figure or, if he does, it will be to no great extent. He hasn't caught a game all season and can hardly be right now.

I should say that, regardless of how they look individually—left handers against right hand hitting and what not—that Cochrane makes the Athletic staff look the part of a better combination. And, as that the Cubs have been beaten by Hubbell, Mitch-

ell, Petty, Sherdell and other good left handers. So why get overheated about it? If Rube Waddell was available today, I don't suppose Connie Mack would figure on using him in the bull pen just because the Cubs are right hand hitters.

Offard, like the Cubs' infield defensively. Infield defense, performed from second base and the Hornsby-English pair has had a great year. They are as steady as Bishop and Boley and can do more things with that ball. Grimes is well out in front of Foxx as a defensive first baseman too. Considering the fact that both will figure in some seventy per cent of the plays, this fact is not without importance. Third basemen are far less prominent but it is worth mentioning that Dykes is a better ball player than McMillan.

There may be a choice between the two outfielders—Guyler, Wilson and Stephenson, of the Cubs, and Simmons, Haas and Miller, of the Athletics—but I don't see how anybody can make it until they have matched the pair of them on the same field. They are very close, anyhow.

As for secondary strength, the Athletics seem to have the better of it. They have Dykes, who can shift to any other infield post; Hale, Cronin and Burns, extra infielders; French and Summa, reserve outfielders, and a better catcher on the bench. Perkins, then the Cubs are likely to have their lineup. The latter have Tolson to replace Grimm but Beck wouldn't go so well if he filled in for anybody but McMillan. Heathcote, the extra outfielder compares more than favorably with French and Summa, however.

## Boston Braves Rout Pirates

Braves Hop Forth In Seventh And Assault Grimes' Delivery

PITTSBURGH, Sept. 20.—The Boston Braves yesterday routed Burleigh Grimes and the Pirates for a 6-3 victory at Forbes field. Grimes pitched good ball for six innings and the Pirates had annexed several runs but after that the order of things changed as Boston got six runs in the last three innings.

Seibold was removed after the sixth to allow a pinch hitter to do his stuff and after Grimes had gone 6 1/3 innings French went in but gave way in favor of Swetonic. Cooney finished the game for Boston.

# Hillsville Holds Community Picnic

Annual Affair Wednesday Is  
Largely Attended By  
Residents Of Dis-  
trict

Hillsville held its "summer Christmas" on Wednesday afternoon, September 18th, when the Community picnic sponsored jointly by the Johnson Limestone company and the Lake Erie Limestone company was held, with about 80 percent of the adults and children of the town participating.

Work was forgotten for the afternoon and everybody lent himself to the serious business of having a good time, and as usual the effort was a huge success. From noon until sundown the youngsters enjoyed the sports, the older folks enjoyed the drills, and all of them enjoyed the refreshments.

#### Many Committees

To put over the picnic in the manner it has always been done, required the services of many committees and their work showed in the success of the day, and the smoothness in which everything went off.

The sports committee was composed of J. Walker Barstine, and J. W. Quincy of the Johnson Limestone company and Joe Cooper and Harold Shelleave from the Lake Erie Limestone company. In the ball game between the two plants the Johnson team came through a winner by a score of 8 to 5.

The first aid drill consisted of three squads under the direction of the Surgeon-General of the Johnson Limestone company, Dr. E. M. Parlett. Results of the various races follow:

Crab race—For boys 12 to 16. Stanley Velinska.

Balloon contest—For men over 21. Benny Pughese, Romeo Sannino, Russell Tanen.

Balloon contest—For girls over 12. Clara Piscuneri.

morni nogni emH b

Peanut race—For girls under 12. Lillian Pasquale.

Fifty yard dash—For boys under 16. Alfonso Terotto.

Hundred yard dash—For men over 21. Kenneth Gwin.

Shuttle contest for boys under 12. Jack Faldon.

Tug of war for men. Won by Johnson team.

Tug of war for women. Won by Lake Erie team.

Prize waltz consisting of four couples. Won by Mr. and Mrs. Duke Gennaro.

On account of the cool weather, the band show was not held.

Refreshments were ordered at 4:30, consisting of sandwiches, ice cream, pop and peanuts.

The refreshments were in charge of Miss Maude Keyser, assisted by Mr. and Mrs. H. W. McKee, Walter W. Duff, Mr. Heady, Dr. and Mrs. F. D. Campbell, Mr. and Mrs. G. W. Martin, Mr. and Mrs. Ben List, Mr. and Mrs. J. W. Quinley, Miss Pearly Durbin, Miss Ida Mae Beale, Miss Jessie Wilson and Frank Offutt.

## Proceed With Plan For Extension Of Grant Street Sewer

Engineer Miller Ordered To Pre-  
pare Plans; Seek Waivers  
Of Damage

Council today instructed Engineer Frank Miller to prepare plans and specifications for the extension of Grant street storm sewer, was directed to secure waivers of damages from property owners affected.

Council has asked Mrs. Miller of State street to waive damages, while reported that she had refused.

Councilman Tyler said that years ago the city had put a screen on her property and it had been covered over by a driveway.

This has caused part of the trouble which is said to exist in that section, Tyler said.

White told council that a screen could be placed on another property which would catch logs.

Council acted according to White's suggestion and a screen will be installed further west on the State street hill.

## Trinity Men's Club Arrange Big Event

Will Hold Annual Fathers And  
Sons Banquet Septem-  
ber 25

Men's club of Trinity Episcopal church will on Wednesday evening, September 25 hold the annual Fathers and Sons banquet of the parish in the guild room of the church. The affair is scheduled for 8:30 p. m.

Louis B. Round, district manager of the New Castle District of the Penn-Ohiio system, will be the speaker of the evening. His subject will be "Light's Golden Jubilee." It will be in the nature of a tribute to Thomas A. Edison, the greatest wizard of modern times.

The dinner will be prepared by the ladies of the church. The affair will be open not only to the Fathers and Sons of Trinity church but also to all men who may be interested.

#### JAMES PAOLISE TO

#### HAVE HEARING TODAY

James Paolise arrested a few nights ago by Officer McMullen in the Bank street district after an exciting chase has been charged with violation of the Snyder act before Alderman Walter T. Hamilton. He is scheduled to have a hearing this afternoon. He has been out under \$1,500 bail since his arrest.

Sometimes a man gets so mad he quits being a hypocrite for a few brief minutes.

A splendid program has been

worked out for the celebration, which will commemorate the completion of the new centralized school, installation of electric power in the community and the erection of the new Presbyterian church and Perry highway improvement.

The program, which begins at one p. m., will include a parade, athletic events, addresses by noted speakers, old-time and modern street dances, community singing, led by L. K. Graham; music by the Pennsylvania railroad band and the Mercer Odd Fellows fifi and drum corps.

The following committees have been appointed: parade, Roy Orr; eating stand, chairman, George Douglass;outing, J. K. Black; sports, chairman, Monas Collins; parking, Brooks Broadhead; reception, Harry Hunter; dance, Mont Crawford; singing, Lewis Coleman; music, Hollis Johnston and

Harry Hunter; grounds, Stanley Cotter; carpenter, Kerr Black; water and gas, Mr. Chambers and Jay Collins; lumber, W. J. Allen; banquet, William Hancock.

County Farm Agent H. R. McCulloch spent Thursday touring Venango county with E. G. McElroy, county agent of Venango county. Mr. McCulloch assisted in the selection of pure bred rams. These rams will be sold at public auction under the auspices of the Titusville Woolgrowers association at the fair grounds at Titusville September 25.

Leesburg residents are looking forward with great expectancy to the big celebration which will be held there Saturday evening, Sept. 28, when a number of events of great importance in the history of the borough will be commemorated.

The rams consist of Hampshires, Shropshires, Oxfords and Cheviots.
